- Accommodation in a Public Hospital, shared room/ward for overnight or same day admission up to the minimum (default) rate as set by the Australian Government

Out-of-pocket costs (Hospital)

If you are admitted to hospital (including for Covered treatments) you may have out-of-pocket costs, some of which have been detailed below. If you want more specific information about what you can expect these costs to be, we recommend you obtain a quote from your doctors/hospital before undergoing treatment. Then contact us for details of benefits before proceeding with your treatment. Additionally, benefits are not payable for claims where you have the right to claim compensation, damages or benefits from another source (e.g. TAC or WorkCover), now or at a later date.

Hospital Accommodation

General

Hospital covers do not pay any benefits towards the cost of non-admitted hospital visits, attendance at a doctor's room or administration fees when you attend an Emergency Department. You will be out-of-pocket for all of these costs.

Non-agreement Private Hospital/private room in a Public Hospital

If you are admitted to a non-agreement Private Hospital, or to a private room of a Public Hospital, then the amount we pay is a set rate and may not cover the full cost of your stay which means you may incur large out-of-pocket costs.

Shared room of a Public Hospital

If you are admitted as a private patient in a shared room of a Public Hospital, then the amount we pay is the minimum (default) benefit for the accommodation set by the Australian Government. If the hospital charges more than the minimum (default) benefit, you will incur out-of-pocket costs.

Find an agreement Private Hospital: australianunity.com.au/agreementhospitals

Medical Bills

The Australian Government sets a schedule of fees for all medical treatments called the Medicare Benefits Schedule (MBS). When you're treated as a private patient in a Public or Private Hospital, Medicare pays 75% of the MBS fee and Australian Unity pays the remaining 25%. If your doctor or specialist charges more than the MBS fee, then this will result in an out-of-pocket expense better known as 'the gap'.

Out-of-pocket costs (Extras)

At Australian Unity we want to try to help with the cost of looking after your health by putting some money back in your wallet. Extras cover can help you get money back on common health treatments that aren't generally covered by Medicare.

You'll get a percentage of the cost, or set benefits back on included Extras every time you claim, until you reach your yearly limit, where applicable. Therefore you only pay the difference between what you get back from Australian Unity and the cost set by your provider.

Please call us or refer to your Member Guide and Terms & Conditions for further information on how this cover works. If you want more specific information about what you can expect your out-of-pocket costs to be, we recommend you obtain a quote from your provider before undergoing treatment, along with a list of item numbers. You can then log in to Online Member Services for details of benefits before proceeding with your treatment.

Dental Service Limits

We use the Australian Dental Association (ADA) guidelines and our Fund Rules to determine whether we pay benefits for certain services. For example, the ADA guidelines help us to categorise each dental service (e.g. 'diagnostic', 'Periodontics') and may indicate that a certain dental item number can't be charged by a provider with another service during the same visit. Some limited services may also not be payable under our assessment rules. Where possible, you should always contact us to determine the benefits you can expect to receive.

Planning a family

There's no happier time than starting or growing your family, and we want to ensure your new addition is covered straight away on your policy without having to serve waiting periods. It's important to contact us in a timely manner as you may not be able to backdate this request. More details on managing your membership and the requirements to add a child can be found in the Member Guide, at australianunity.com.au/importantdocuments

Pre-existing conditions

A pre-existing condition is an ailment, illness or condition that in the opinion of a medical practitioner appointed by Australian Unity (not your own doctor), the signs or symptoms of that ailment, illness or condition existed at any time in the period of six months ending on the day on which you joined Australian Unity or upgraded your cover, irrespective of whether you were aware of it. If you make a hospital claim in the first 12 months of your joining or upgrading your cover, we will ask you to get your consulting doctors or other practitioner (e.g. your dentist, GP or specialist) to complete a medical report. You should ask us to carry out this assessment before going into hospital.

Accidents

Accident means an unplanned and unforeseen event, occurring by chance, and leading to bodily injuries caused solely and directly by an external force or object requiring treatment from a Medical Practitioner (defined here as a medical doctor who is not the member or a relative of the Member) within 7 days of the event, but excludes injuries arising out of: surgical procedures; unforeseen illness; pregnancy; drug use; and aggravation of an underlying condition or injury.

Restricted Services

Restricted services are hospital claims which are limited to a minimum (default) benefit. This is the minimum dollar amount set by the Australian Government for accommodation as a private patient in a shared room of a Public Hospital. A Restricted service does not pay any money towards the cost of intensive care, coronary care, labour ward or theatre fees in a private hospital or private day centre. You may incur a large out-of-pocket expense.

Surgical Implants (Prosthesis)

If a treatment is Covered (or Restricted) under your hospital cover, you are also covered for any Australian Government approved surgical prosthesis on the Australian Government Prosthesis List. We will pay up to the benefit of the prosthesis set out in the Australian Government Prosthesis List at the date of service, so you shouldn't have any out-of-pocket expenses. If the prosthesis is not in the List, you'll have to pay any cost charged by the hospital, but the hospital or doctor needs to provide you with Informed Financial Consent first.

Recognised Providers

We only pay benefits when you see a recognised provider in a private practice. Please contact us to check if your provider is recognised by us.

Consultations and Telehealth Appointments

References to 'consultations' in the tables above are to in-person consultations. Physiotherapy treatment is also eligible for benefits where the consultation can be appropriately delivered as a telehealth appointment. Benefits are only payable for one consultation with a provider on the same day, for the same member.

Changes to your cover

We may at any time make changes to your cover. This may include adding or reducing the benefits or services available to you. We will ensure that we provide you with appropriate notice of these changes in accordance with the Private Health Insurance Act 2007, the Australian Consumer Law and the Private Health Insurance Code of Conduct.
