1. Information about Australian Unity

Australian Unity

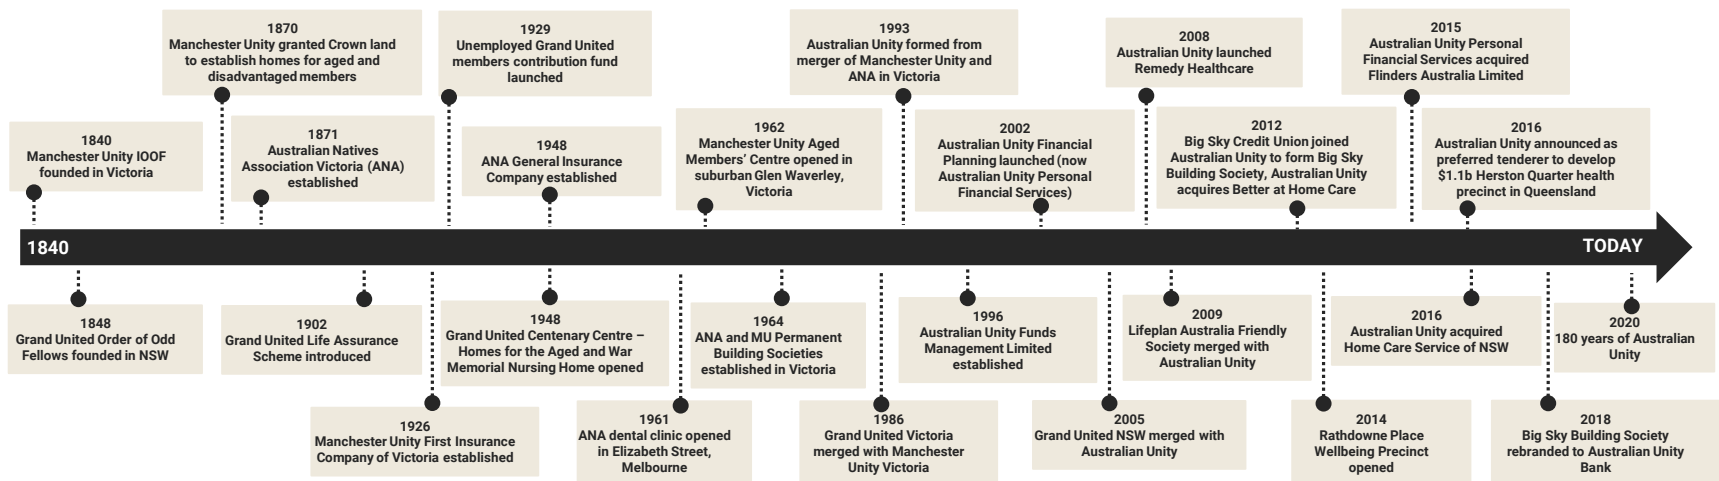

180
YEARS

A mutual organisation with over 180 years of history

- Australian Unity's history traces back to 1840, when eight people came together in a Melbourne pub to form a friendly society to help fellow Australians in times of hardship.
- Through strategic mergers and diversifications into new activities, Australian Unity has grown to an organisation of approximately 7,000 employees across Australia, serving over 700,000 members and customers.
- Since its origins, Australian Unity has remained committed to its core purpose of providing of health, wealth and care products and services that deliver community and social value.
- Being a mutual entity, Australian Unity is governed by—and for the benefit of—its members.

Key historical milestones

Australian Unity Group portfolio

180
YEARS

Diversified portfolio of operating businesses, segmented into three platforms

¹ Adjusted EBITDA: the measure the Australian Unity Group uses in assessing the operating performance of its business segments. This measurement basis excludes the effects of tax, depreciation and amortisation, interest on external borrowings and investment income. It also excludes Australian Unity Group overheads and other material non-recurring expenditure.

Diversified business with a strong track record of profitable growth

- Australian Unity's portfolio of thematically linked businesses endeavour to foster individual and community wellbeing while also delivering commercial returns.
- Continued commercial and financial discipline has resulted in the historical generation of profits which have been reinvested over time to further expand and grow the organisation and deliver value to members.

Notes:

¹This financial information is provided for information purposes only and is not a forecast of performance to be expected in future periods. Past performance and trends should not be relied upon as being indicative of future performance and trends.

²FY16 result impacted by integration and additional funding costs associated with the transfer to the Australian Unity Group of the home care operations of the NSW Government (Home Care NSW).

³Included in FY18 result was a profit from discontinued operations of \$66.9m from the divestment of the Australian Unity Group's corporate health insurance subsidiary, Grand United Corporate Health Limited (GUCH) completed 31 October 2017. The FY18 results also included \$14.7m of costs arising from a transformation program. The result was also adversely impacted by capital management initiatives designed to proactively enhance the Australian Unity Group's balance sheet resilience, including accelerated depreciation and amortization of some capitalised assets (\$35.9m).

⁴FY19 result benefitted from legal settlements received by the Life & Super business.

¹ As at 30 June 2020.

² Equity attributable to members of Australian Unity.

Social impact and purpose

180
YEARS

Australian Unity – supporting individuals and communities to thrive

- Delivering value to members, customers, employees and the broader community is a hallmark of the Australian Unity Group.
- Through its 20 year partnership with Deakin University delivering the Australian Unity Wellbeing Index, Australian Unity understands there is more to real wellbeing than physical health.
- In line with its strong social purpose, Australian Unity has developed a Community & Social Value (CSV) framework for understanding, articulating and measuring the community and social value of what it does.
- Beyond its social impact, Australian Unity also seeks to meet the environmental and governance expectations of the communities in which it operates.

Australian Unity's CSV framework

Impact areas

Description

Example outcome

Individuals and communities have more choice and control over the care they receive and remain healthier for longer – and the standard of care across the sector increases

More than 60% of Mindstep® patients recovered within three months, compared to a benchmark self-recovery rate over three months of 23% for untreated patients

Individuals and communities are better prepared for the future – both in terms of their financial security and financial resilience. Feelings of economic inclusion are not isolated to specific groups or cohorts

In FY20, almost 2,000 Australians started saving for their future via Australian Unity's new 10Invest product. More than 80% of these investments include a regular savings plan, helping people improve their financial resilience and plan for their futures

Community members feel socially connected, supported and have a sense of purpose. Their communities are resilient and set-up to meet the changing needs of the population

Research has shown Australian Unity's Better Together® model¹ results in 73% lower chance of emergency department presentation, 52% lower chance of being prescribed potentially inappropriate medication and a 68% lower rate of hospital admission

Meeting Australia's future wellbeing needs

- Australian Unity's strategic agenda reflects a growing demand amongst its members and customers for valued health, wealth and care products and services.
- A rapidly ageing population and millions of Australians living with chronic illness are combining to accelerate this demand, threatening the sustainability of the system and viability of government budgets.¹
- The connectedness of the Australian Unity Group's operations through its three business platforms allows it to take a holistic approach to addressing these challenges.
- This strategic agenda will also assist in building a commercial and sustainable portfolio of businesses.

- FY20 operating results were significantly impacted by the following:
 - Estimated direct and indirect impacts of the COVID-19 pandemic, including deferral of private health insurance premium increases, customer cancellations of home care, disability, dental and healthcare services, reduced funds management, reduced lending and property services activity fees and costs of additional personal protective equipment and related consumables, amongst other things (~\$26.0m);
 - Costs associated with the Australian Unity Group's head office moving to leased premises (\$7.0m); and
 - Timing-related costs due to the inception of new accounting standard on leases (\$5.4m).
- With the COVID-19 pandemic continuing there will be further effects in FY21, including the deferral of private health insurance premium increases and undertaking increased provisioning in response to the pandemic effects, including for deferred private health insurance claims. These effects will likely be evident in the interim results for the half year ending 31 December 2020, noting that, historically, the first half of the financial year has typically made a smaller contribution toward the overall annual result than the second half for Australian Unity.

About mutual capital instruments

180
YEARS

- Mutual capital instruments are a specific type of security that was developed to provide mutual entities with a means to raise permanent capital without giving up their status as a mutual entity.
- Issuing mutual capital instruments has been a long-term focus for Australian Unity.
- **2015** - Australian Government initiated a multi-staged process to create mutual capital instruments as a security in the *Corporations Act*. Australian Unity and other major Australian mutual organisations participated in the development of the legislation.
- **April 2019** - the issue of mutual capital instruments was made possible through legislation enacted to amend the *Corporations Act*.

This outcome reflected the recognition by the Australian Government that the difficulties faced by mutual entities when raising new capital was a primary barrier to the ability of mutual entities to invest, innovate, grow and compete

- **October 2019** - Australian Unity's Constitution was amended to allow for the issuance of mutual capital instruments.

Provides packages and solutions that contribute to solving affordability challenges

- Retail encompasses Australian Unity's private health insurance and banking business.
- Primary revenue sources of the Retail platform are monthly health insurance premiums and loan interest payments paid by retail customers.
- Pressures on private health insurance from a cost, volume and capital perspective are being addressed by enhancing the customer value proposition, targeted partnering with healthcare providers and seeking opportunities to build scale through consolidation within the mutual sector.
- Banking, although relatively small, has enjoyed strong momentum over recent years through its 'banking that's good for you' customer value proposition.
