Dear Member

On behalf of the board, I am pleased to present Australian Unity's Remuneration Report for the year ended 30 June 2023.

## Performance and Compensation outcomes for the 2023 financial year

FY23 was a year in which we continued to make good progress in advancing our strategic objectives for long lasting and sustaining impact for the Group. We observed extraordinary efforts right across our business to protect the safety and wellbeing of our customers, members and employees while maintaining strong business performance and effective risk management.

Against a challenging economic and policy backdrop, we completed building two residential aged care communities, established and progressed significantly our Home Health platform, and continued to grow our financial products and funds under management. More broadly, we grew our impact across our priority areas of lifelong wellness, economic empowerment, and our contribution to strong communities.

The board acknowledges these efforts and the resulting outcomes and has made awards of variable compensation for FY23. These are in accordance with the principles set out in our compensation framework and recognise both financial and non-financial outcomes. This decision reflects the value we place on the contributions and achievements of our people and acknowledges the important role they collectively played in confronting the many challenges over the period.

## Future Focus

In an era of a dynamic and constantly changing employment markets, the board will continue to assess the effectiveness of our compensation arrangements to ensure they are consistent with the long-term interests of Australian Unity and its members, and that we are able to attract, motivate, and retain talent across our diverse businesses.

I offer my sincere thanks to all our people for their untiring efforts and ongoing commitment over the past year.

Yours faithfully,

**Melinda Cilento**  
Chair - People, Culture & Remuneration Committee

## Section 3 – Compensation Governance and Risk

### 3.1 Governance

The Australian Unity Board is responsible for our compensation framework and its effective application. The board is also responsible for making decisions on the compensation of senior executives and does so with the assistance and advice of the People, Culture & Remuneration Committee (PCR Committee).

The PCR Committee is a committee of the board of Australian Unity Limited and oversees the performance management framework and overall compensation arrangements for Australian Unity in accordance with the Australian Unity Remuneration Policy and the PCR Committee Charter which sets out the committee's responsibilities and processes.

### 3.2 External Advisors

The PCR Committee may engage with external advisors to assist when making compensation decisions.

Except for a review supporting the letter attached to this report from Guerdon Associates that compensation paid to KMP is appropriate—the board did not use compensation consultants during FY23.

### 3.3 Compensation and Risk

We seek to implement and govern effective compensation practices that compensate performance in a manner that is appropriate and consistent with member, customer, and regulatory expectations, including the requirements under Australian Prudential Regulation Authority (APRA) Prudential Standard CPS 511 Remuneration (CPS 511) and the Banking Executive Accountability Regime (BEAR).

We manage risks associated with delivering, assessing, and rewarding short-term and long-term performance by:

- Allowing the board to adjust variable compensation outcomes downwards, to zero if appropriate, if such adjustments are necessary to protect the financial soundness of Australian Unity, to respond to significant unexpected or unintended consequences that were not foreseen, or in response to instances of systemic risk and conduct failures leading to reputational or financial damage.
- The PCR Committee jointly meet with the Risk & Compliance Committee at least once per calendar year to discuss risk and compliance matters including, but not limited to, risk culture, consequence management issues, and effective management of financial and non-financial risks that could materially impact Australian Unity's risk profile, performance, and long-term soundness. The board will make appropriate adjustment to variable compensation outcomes commensurate with the management of those risks.
- Ensuring that all senior executives have a stand-alone risk and conduct assessment included in their overall performance assessment (referred to as Risk and Conduct Gateway). Assessment indicates whether the individual has 'met expectations,' 'partially met expectations' or 'not met expectations' of the risk and conduct requirements for their role. A risk assessment outcome less than 'met expectations' results in variable compensation being reduced to zero.
- The deferral of an appropriate portion of the variable compensation of individuals with senior executive responsibility for functions which may affect the financial soundness or reputation of the Group (including those prescribed under BEAR) and individuals who may receive a significant proportion of total compensation as variable compensation.
- Allowing the board to reduce (including to zero) deferred variable compensation amounts not yet paid (malus) or recover variable compensation amounts already paid (clawback) subject to applicable legal limitations.

## Section 5 - Non-Executive Directors' Compensation

### 5.1 Fee policy and pool

Australian Unity's constitution and board charter require that directors meet a variety of standards to be eligible to remain directors of the board. These include meeting stringent 'fit and proper' standards under legislation and prudential standards. The constitution also provides that non-executive directors are to be paid fees (compensation) for their services as directors, subject to the aggregate fees not exceeding the annual sum last approved at a general meeting.

Non-executive director fees are reviewed annually by the board considering the duties, responsibilities and demands on directors, organisation performance, trends, industry standards and fees paid by comparable organisations. No variable compensation or options are payable to non-executive directors.

Members last approved an increase in the aggregate fees payable to non-executive directors at the 2021 Annual General Meeting on 27 October 2021. At that meeting members approved the sum of up to \$1.9 million in aggregate fees per financial year. This increase in the sum approved took effect from 1 January 2022.

The total directors' fees for the year ended 30 June 2023 was \$1.6 million.

Details of individual non-executive director allowances, payments and entitlements are set out in following tables.
