Australian Unity heritage

1962: Manchester Unity Aged Members' Centre opens in suburban Glen Waverley, Victoria

When Manchester Unity opened its first Aged Members' Centre in 1962, it commenced a path along which the care for the older community has continued under the banner of Australian Unity into the present day.

180 years of supporting community wellbeing

Established in 1840, we were Australia's first member-owned wellbeing company, delivering health, wealth and care services. We're committed to real wellbeing for all Australians, and for us, real wellbeing means so much more than physical health. It's about your standard of living and feeling safe in your home. It's your personal relationships and being connected to your community. It's about what you want to achieve in life, while having the security to get out and do what makes you happy.

Being a mutual means we can invest money into the services and solutions that matter most to our members, customers and the Australian community. We can also make long-term decisions.
