

# Financial goals tracker

## Building up

Use our Financial goals tracker to set some short, medium and long-term goals. Then, think about three habits you can change or introduce today to achieve your goals. The key is to set goals that are realistic and suited to your current financial situation and avoid putting yourself under personal or financial pressure.

And remember, if things don't quite go to plan, at least you'll have options because you've started to build your wealth and secure your financial future.

### How to use the Financial goals tracker

1. Think about your short, medium and long-term goals.
2. Next, think about the habits or changes you need to make to achieve these goals.
3. Work out any costs you have, how long it will take you to achieve your goals and who can help you stay accountable.
4. Try to revisit your goals at least once a month and update your progress.
5. If you have a big goal, such as paying off your mortgage, consider breaking it down into smaller short-term goals. For example, 'I will contribute an extra \$X to my mortgage this year.'
6. Don't forget to celebrate when you reach a goal or significant milestone.
