Tax effective investing

Taxation Information

The tax information outlined below is subject to the disclaimer on the inside cover page of this PDS.

How are the returns on your investment taxed?

The Lifeplan Bond is an investment bond often referred to as a 'tax-paid' investment. Tax on investment returns is paid by us at the life insurance tax rate (currently 30%). However this may be less due to allowable tax credits (e.g. franking credits).

While you remain invested, your investment does not increase or add to your personal income tax liability.

The Lifeplan Bond also allows you to take advantage of tax concessions available to this type of product, including your investment returns being tax free when accessed after 10 years in the fund.

Tax paid returns after 10 years

If you hold your investment for more than 10 years from the original investment date, you do not pay any further personal tax on withdrawals made after this time (subject to the 125% rule requirements).

No personal income tax is payable on a return of your contributions. It is treated as a tax free return of capital.

Tax offsets for withdrawals within 10 years

If you make a withdrawal:

- in the eighth year or earlier, all of the earnings on the withdrawal are assessable;
- in the ninth year, only two-thirds of the earnings on the withdrawal are assessable;
- in the tenth year, only one-third of the earnings on the withdrawal are assessable;
- after 10 years, you do not pay any further tax on the withdrawn earnings.

Even if you make a withdrawal within the first 10 years you are able to take advantage of the 30% tax offset to reduce your personal income tax.

For example, if your tax rate (including levies) is 47% you only need to pay top-up tax of 17% on the earnings component of any withdrawal after taking into account the tax offset.

Withdrawals made	Tax payable on
8th year or earlier	All earnings
9th year	2/3rds of earnings
10th year	1/3rd of earnings
After 10 years	Nil

What is the 125% rule?

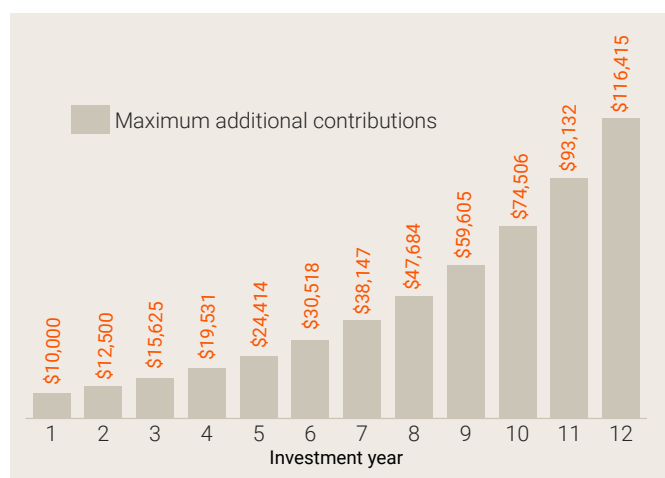

You can contribute as much as you wish during the first year of your investment. However, subsequent years contributions are each limited to 125% of the previous year's contribution, to avoid restarting the 10-year tax period.

Important things to note with the 125% rule:

- an investment year is considered each 12 month period from your investment's original start date.
- if you make an additional contribution in excess of the 125% limit, the 10-year period will start again for the entire investment.
- if you do not make any contribution in a particular year, any contributions in following years will reset the 10 year rule.
- if you wish to invest more than 125% of the previous investment year's contributions, it may be more appropriate to start a new investment.
- after the 10th year, earnings on each additional contribution receive immediate tax free withdrawal status.

Example - 125% rule

The example below shows how the 125% rule would work, assuming total contributions in the first investment year of \$10,000 and the maximum contribution made each year.

Think differently

Not just for investors with a personal tax rate above 30%.

If your personal tax rate is below the life insurance tax rate of 30%, any excess tax offset may help reduce your tax on any other assessable income earned in the same tax year.

Example of the tax offset

The following example illustrates how an investor's tax advantages may increase the longer the investment is held before making a withdrawal. However, if a withdrawal is made within 10 years of commencing the investment, the tax offset can reduce any liability for personal income tax in that particular year. The illustrations in the table assume that the investor's marginal tax rate is 47% (including levies of 2%), and the amount withdrawn includes investment earnings of \$10,000.

	Withdrawal made in the...			
	8th year or earlier	9th year	10th year	After 10 years
Investment earnings ¹	\$10,000	\$10,000	\$10,000	\$10,000
Assessable income	All	Two-thirds	One third	None
Assessable income	\$10,000	\$6,667	\$3,333	Nil
Less income tax liability of 17% (47% less the 30% tax offset ²)	(\$1,700)	(\$1,133)	(\$567)	Nil
After tax return	\$8,300	\$8,867	\$9,433	\$10,000
Your net personal income tax rate on this withdrawal	17%	11.33%	5.67%	Nil

1. The investment earnings of \$10,000 used in the table are after management fees and costs, performance fees, other expenses and tax paid by us. The earnings do not represent a financial forecast or prospective financial information and should not be taken as an indication of the current or future investment earnings you are likely to receive. Investment performance of the investment options will vary from year to year and may be negative (except for the Lifeplan Capital Guaranteed investment option, for which the return of your contributions and declared bonuses is guaranteed (refer to 'Valuation of Lifeplan Capital Guaranteed investment option' on page 35)).
2. The examples shown in the table are simplified illustrations only and assume any additional contributions are within the 125% rule and you have held your investment for the entire period.

Long term effect of saving tax with the Lifeplan Bond

The below graph illustrates the potential long-term advantages that a Lifeplan Bond can have over direct investment in another vehicle (such as a managed fund or shares), where the investment returns are typically taxed directly in the hands of the investor at their marginal tax rate.

In this example, we assume an initial investment of \$100,000, an investment return of 4% p.a. after fees and costs but before the impact of tax. The long-term advantage that the Lifeplan Bond may achieve over a directly taxed investment arises from two main differences:

- the tax rate payable on the Lifeplan Bond (currently 30%) being less than the marginal tax rate applicable to the investor, and
- the compounding effect of reinvesting this difference in the two tax rates. That is, both the original investment capital and increased after-tax earnings grow your investment. This characteristic of tax-paid investments can be particularly powerful for investors on high marginal tax rates.

Please note, the above graph is for illustrative purposes only and is not an indication of current or future performance. The actual investment performance by either investment vehicle will vary from year to year and may be negative.

The advantages of switching or rebalancing your chosen investments

You can switch investment options at any time without personal tax impact (including capital gains tax).

This is of particular advantage to those investors wanting to rebalance their portfolios as they approach retirement.

Tax position of a withdrawal as a result of death, disability or financial hardship

No personal tax is payable on proceeds received (irrespective of how long the investment has been held) by an investor, an investor's estate or the nominated beneficiaries (if any) as a result of:

- the death of the last surviving Life Insured (refer to page 8 for details on Life Insured); or
- serious illness or disability affecting last surviving Life Insured; or
- unforeseen serious financial hardship affecting you as the investor.

Estate planning solutions and wealth transfer

Relying entirely on superannuation can lead to unintended outcomes

We all know that superannuation is a tax effective way to save for retirement and, when in retirement, to receive a tax advantaged income.

Another important consideration is maintaining control over where the balance of your superannuation is paid upon your death.

You can make a death benefit nomination over the account, but you can only choose between the superannuation balance being paid to your dependants or your estate.

If you have not given an effective death benefit nomination to your trustee, then where the death benefit is paid becomes a decision of the trustee of your superannuation fund. This could mean that the balance of the superannuation account could go to your estate, or amongst your “dependants”, but this will be a decision of the Trustee and not you.

Establishing a Will may not always ensure the end result you would like

We often think that once we have a Will in place that we have taken care of estate planning, and nothing further needs to be done. However, at the moment in time when you execute a Will, you cannot foresee whether there will later be a divorce, or death, amongst those whom you wish to inherit from your estate.

You don't want life's unfortunate events to derail your plans to help out your children or grandchildren.

Future Wealth Transfer – transfer your wealth in a tax-effective way

Future Wealth Transfer is designed for anyone, including a parent or grandparent, or other family members and friends, who would like to facilitate a transfer of wealth in a tax-effective way.

The Future Wealth Transfer facility offers the ability to set a future date (such as a grandchild turning 25 for example) for the automatic transfer of ownership of your Lifeplan Investment Bond to your nominated new owner, which can be an individual, joint owners, a company, or a trust.

If you use the Future Wealth Transfer feature, you will still have full control of your investment until the date that you have nominated for the transfer to occur while retaining the freedom to alter or revoke the transfer nomination.

The nominated new owner must be 16 years or older at the time of transfer. If you wish for the transfer to occur to a new owner under the age of 25 at the time of the future transfer, you should also consider the suitability of the Lifeplan Child feature as an alternative.

Taking control through an investment bond

The Lifeplan Bond is regulated by the Life Insurance Act and as it is structured as a life policy, it:

- gives you the ability to nominate the person(s) to receive the benefit if you die before you redeem its value;
- is protected under the Life Insurance Act from being applied to the payment of the debts of the person having an interest in the policy;
- does not form part of your estate when you die, if you have nominated a beneficiary. The proceeds of the Lifeplan Bond are paid directly to or for that beneficiary;
- is protected, where you have chosen for the proceeds to be paid to your estate, from being applied to your debts unless you have chosen for this to occur.

In addition to its basic estate planning advantages the Lifeplan Bond also provide features that allow you to take greater control of how, when and to whom your wealth is distributed.

Wealth Preserver (refer to page 9)

A unique feature to the Lifeplan Bond allowing you to protect how and when your beneficiaries are paid the proceeds of your investment, without the need to setup complex trusts.

The proceeds can be paid as a deferred lump sum, an income stream or a combination of both.

Lifeplan Child (refer to page 12)

Allows you to provide for the future financial needs of a nominated child by transferring the investment to a nominated child. The child receives the proceeds at a future date determined by you, and until that time you retain full control of the investment.

Setting up your Lifeplan Bond to meet your estate planning and wealth transfer needs

It is important to structure the ownership of your Lifeplan Bond investment so that it meets your estate planning objectives.

Thus, when completing the application to invest, please give serious consideration to:

(a) the Policy Owner(s)

is the legal owner of the Lifeplan Bond investment, and can be:

- individuals and joint investors aged 16 years and over.
- companies and trusts (including deceased estates).
- a child between the ages of 10 and 16 with parental or guardian consent (refer to 'Investing on behalf of younger investors' in this section).

(b) the Life Insured

As the Policy Owner, you are able to nominate one or more natural persons as a Life Insured of your investment.

If you, as Policy Owner, die before the last surviving Life Insured, control of your investment passes to your estate. A Life Insured cannot be removed after your investment has commenced. If you do not nominate a Life Insured, you and any joint applicant will become the Life(s) Insured.

You can nominate an additional Life Insured after your Lifeplan Bond investment is established.

(c) Beneficiaries

As the Policy Owner(s), you can nominate one or more beneficiaries who will automatically receive the proceeds of your investment tax-free upon your death (the 'death benefit'), or on the death of the last surviving Life Insured where there is more than one Life Insured nominated.

If you wish to nominate a beneficiary, you must also be the Life Insured (see 'Life Insured' on this page). For joint applications, all joint investors must be the Lives Insured.

The proceeds of any death benefit will be paid to your nominated beneficiaries on the death of the last surviving Life Insured.

If you have specified that the Wealth Preserver feature is to apply to a beneficiary, it will be paid according to your instructions.

Refer to the section 'How Wealth Preserver works' on page 9.

The advantages of nominating beneficiaries

- avoid potential delays in the granting of probate and estate administration.
- death benefit proceeds are tax-free in the hands of the eligible nominated beneficiaries who are paid in the proportions you determine.

A nominated beneficiary can be a natural person of any age, a company or a trust. The nomination of a natural person as a beneficiary ceases to have effect upon the death of that person.

If you nominate an additional Life Insured after nominating a beneficiary, you may void the nomination of that beneficiary.

Investing on behalf of younger investors

There are two options available if you wish to invest on behalf of children under 16 years of age.

1. With parental or guardian consent if the child is aged between 10 and 16 years. When the child reaches 16 years, they attain ownership, control and signatory rights over the investment.
2. The second option is for you to invest on behalf of a child through Lifeplan Child. Lifeplan Child is worth considering for children under the age of 10, who are excluded from investing in the Lifeplan Bond and many other investments in their own right (refer to Lifeplan Child – invest for a child's future financial needs on page 12).

Assigning ownership of your Policy

The Future Wealth Transfer facility offers the ability to set a future date (such as a grandchild turning 25 for example) for the automatic transfer of ownership of your Lifeplan Investment Bond to your nominated new owner, which can be an individual, joint owners, a company, or a trust.

If you use the Future Wealth Transfer feature, you will still have full control of your investment until the date that you have nominated for the transfer to occur while retaining the freedom to alter or revoke the transfer nomination.

The nominated new owner must be 16 years or older at the time of transfer. If you wish for the transfer to occur to new owner under the age of 25 at the time of the future transfer, you should also consider the suitability of the Lifeplan Child feature as an alternative.

Protection from creditors in the event of your bankruptcy

The Lifeplan Bond, Wealth Preserver and Lifeplan Child in some limited circumstances, may receive protection from creditors. You should consider seeking independent legal advice if you believe this may apply to your particular circumstances.

Wealth Preserver – estate planning with control and flexibility

Wealth Preserver is a wealth transfer and estate planning feature that provides a seamless, low cost way to transfer wealth. You have total control over how and when payments are made to each beneficiary, without the need to set up complex trusts. The proceeds can be paid as a deferred lump sum, an income stream or a combination of both.

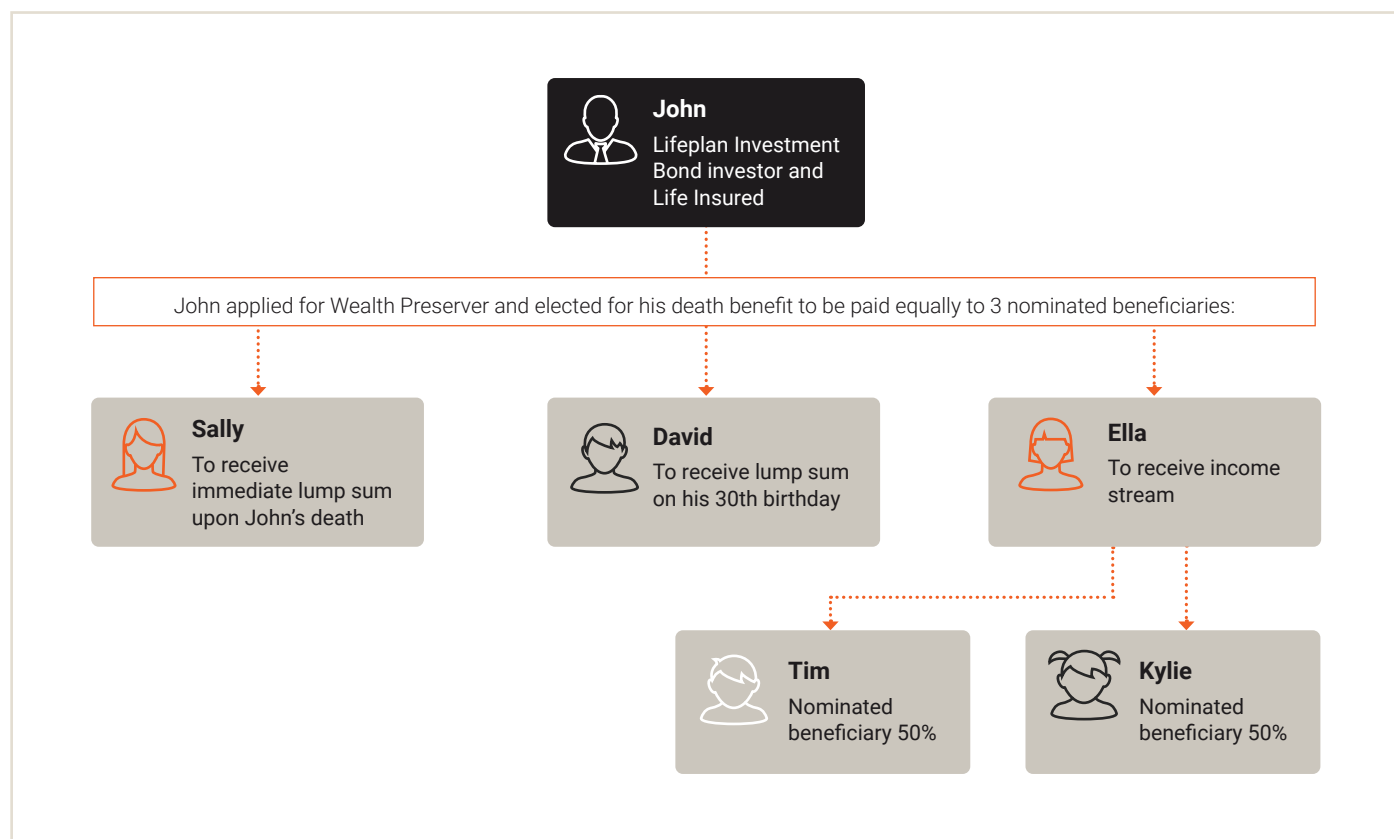

How Wealth Preserver works

- 1 When you apply for a Wealth Preserver in the Lifeplan Bond, you will be required to specify the maximum Annual Benefit Entitlement which can be paid to your beneficiary. The Annual Benefit Entitlement can be:

 - a fixed annual dollar amount, or
 - a percentage of your nominated beneficiary's Wealth Preserver investment balance determined on the start date and each anniversary of the start date thereafter.
- 2 After the death of the last surviving Life Insured, the death benefit proceeds are used to establish a new investment called a Wealth Preserver for each of your nominated beneficiaries, in the proportions you advise.
- 3 Prior to establishing the Wealth Preserver, we will need to receive official notification of your death and verify the eligibility of your nominated beneficiaries.
- 4 Once the Wealth Preserver is set up, your beneficiary becomes the owner and Life Insured of the investment. The proceeds are transferred into your beneficiary's Wealth Preserver and are treated as a tax-free contribution.
- 5 Benefit payments to your beneficiaries are treated as normal withdrawals for tax purposes. There may be tax implications for benefit payments (or withdrawals made) within 10 years of the start date of your beneficiary's Wealth Preserver (refer to 'How are the returns on your investment taxed' on page 4).
- 6 Benefit payments cease after all funds have been withdrawn. Please note that the Wealth Preserver is subject to a minimum investment balance which is currently \$15,000 (refer to 'Minimum investment balance' on page 11).

Wealth Preserver in action

The following diagram shows how you can use Wealth Preserver to plan your estate with control and flexibility.

Fees and rebates that apply to Wealth Preserver

- There are no establishment fees, contribution fees and investing transaction costs resulting from the transfer of your death benefit into your beneficiary's Wealth Preserver.
- other fees and costs to your beneficiary's Wealth Preserver will depend on the fees and costs applicable at the time (current fees and costs are set in the 'Fees and other costs' section on pages 14–27).

- any administration fee rebate which may apply will be calculated on the investment balance in your beneficiary's Wealth Preserver.

Any government charges or duties incurred upon the establishment of your beneficiary's Wealth Preserver are currently paid by us.

Annual Benefit Entitlement

After your death, the Annual Benefit Entitlement you have specified cannot be changed. The minimum annual benefit payment is currently \$1,200 p.a. We may change the annual minimum benefit payment without prior notification.

Your beneficiary's rights

Upon the establishment of Wealth Preserver, your nominated beneficiary also becomes the Policy Owner and Life Insured.

In addition to the other rights described in this section, your beneficiary, as Policy Owner may:

- nominate one or more beneficiaries who will automatically receive the tax-free proceeds of the Wealth Preserver upon their death. The Wealth Preserver feature cannot be activated by your beneficiaries.
- change their nominated beneficiaries.
- switch between investment options.
- appoint a new financial adviser.

However, your beneficiary, as Policy Owner, may not:

- transfer (or assign) the ownership of their Wealth Preserver investment.
- appoint another Life Insured to their Wealth Preserver investment.
- make additional contributions into their Wealth Preserver.

Minimum investment balance

Currently a minimum of \$15,000 per beneficiary is required to start a Wealth Preserver.

If the investment balance falls below the minimum, we may decide to close the investment by fully withdrawing the remaining balance and paying it to your beneficiary.

We may change the minimum investment balance without prior notification to investors.

Think differently

Flexibility for your beneficiaries

With Wealth Preserver, your beneficiaries can change the investment options allocation. They can also defer or receive a lesser payment amount to suit their needs.

Beneficiary payments to children

At the date of your death the following will occur:

- parental or guardian consent will be required to establish Wealth Preserver if the beneficiary is aged between 10 and 16 years. If consent is not obtained within 12 months it will be paid as a lump sum to the beneficiary (or guardian) unless prior instructions are given.
- a lump sum will be paid to the beneficiary (or guardian) if aged under 10 years, unless prior instructions are given.

Retaining your rights as Policy Owner

Activating the Wealth Preserver feature does not change any of your other rights described in this PDS.

Unless you transfer ownership of your investment before your death, the investment remains under your ownership and control.

This means you can change your original plans, including:

- draw on your investment;
- transferring ownership of the policy to another person;
- change the nominated beneficiaries;
- change your Wealth Preserver instructions for your beneficiaries;
- cancel your Wealth Preserver instructions altogether.

Lifeplan Child – invest for a child’s future financial needs

Lifeplan Child is designed for anyone, including a parent or grandparent or other family members and friends, who would like to invest for a child’s future financial needs.

It is particularly useful in relation to children under the age of 10, who are excluded from investing in the Lifeplan Bond (and many other investments) in their own right.

Money invested in Lifeplan Child can be transferred to your nominated child when they reach the specified age. Until this time, you retain full control of the investment.

The nominated child must be under the age of 16 at the time of application. You are required to select a ‘vesting age’ between 10 and 25, as the date upon which the transfer is to occur.

The vesting age can be changed at any time before it occurs.

Who can apply?

Applications can be made in the names of:

- individual or joint investors
- children aged 16 or above

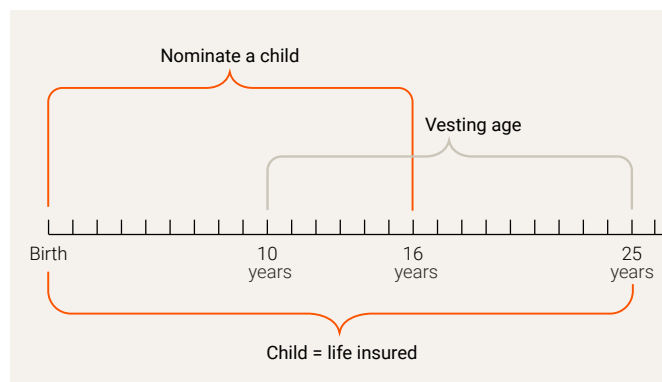

Applications cannot be made in the names of companies or trusts.

How ownership is transferred to the child

At the time the nominated child attains vesting age, the Lifeplan Child converts to a Lifeplan Bond investment with the child as the Policy Owner.

Importantly:

- the transferred investment retains the same start date as the original Lifeplan Child investment and thus preserves the 10-year tax concessions.
- your Australian Unity Limited membership rights will also be transferred to the child as the new owner. Refer to ‘Your relationship with Lifeplan and Australian Unity Limited’ on page 37).
- the transfer of ownership occurs automatically, without incurring any fees or charges.
- if the child becomes an owner between the ages of 10 and 16, a parent’s or guardian’s consent is required for all contributions and withdrawals.

Policy Owner, Life Insured and other beneficiaries

For any one Lifeplan Child investment there can only be two Policy Owners and one Life Insured (being the child). You cannot nominate another beneficiary or add another Life Insured.

If you die before the investment transfers to the child

If you die before the child attains vesting age, the executor or administrator of your estate holds the Lifeplan Child in trust for the child until the child attains vesting age.

If the child dies before vesting age

If the child dies before attaining the vesting age, you (or your estate) will receive the proceeds of your Lifeplan Child tax-free, regardless of when the investment commenced. The proceeds do not form part of the child’s estate.

Important

Unless you transfer the investment before the child reaches the vesting age, the investment remains under your ownership and control. This means you can change your original plans; for example, you can change the vesting age, draw on your investment or transfer to another person.

Future Wealth Transfer – transfer your wealth in a tax-effective way

Future Wealth Transfer is designed for anyone, including a parent or grandparent, or other family members and friends, who would like to facilitate a transfer of wealth in a tax-effective way.

The Future Wealth Transfer facility offers the ability to set a future date (such as a grandchild turning 25 for example) for the automatic transfer of ownership of your Lifeplan Investment Bond to your nominated new owner, which can be an individual, joint owners, a company, or a trust.

If you use the Future Wealth Transfer feature, you will still have full control of your investment until the date that you have nominated for the transfer to occur while retaining the freedom to alter or revoke the transfer nomination.

The nominated new owner must be 16 years or older at the time of transfer. If you wish for the transfer to occur to a new owner under the age of 25 at the time of the future transfer, you should also consider the suitability of the Lifeplan Child feature as an alternative.

The benefits of a Future Wealth Transfer nomination

The date that you nominate for the Future Wealth Transfer to occur, will be the date at which ownership in the Lifeplan Investment Bond will automatically transfer to the new policy owner. This means that the transfer will retain the same start date as the original Lifeplan Investment Bond, and thus preserving any of the 10-year tax concessions (subject to 125% rule).

Future Wealth Transfer feature:

- retains the same start date as the original Lifeplan Investment Bond and thus preserves the 10-year tax concessions (subject to 125% rule);
- your Australian Unity Limited membership rights will also be transferred to your nominated new owner. Refer to 'Your relationship with Lifeplan and Australian Unity Limited' on page 37;
- the transfer of ownership occurs automatically at the nominated date, without incurring any fees or charges; and
- the transfer also happens tax-free and without any personal tax or capital gains tax implications. Refer to the 'Tax effective investing' and 'Social security and deeming impact' sections on pages 10 and 36.

The Future Wealth Transfer is subject to the nominated transfer date occurring before the death of the policy owner (or the death of the last life insured in the case of jointly owned policies).

If you die (or on the death of the last life insured in the case of jointly owned policies) before the transfer date occurs, the policy will at law be treated as matured, and therefore cannot

be transferred to the nominated new owner. This will mean that instead, upon the death of the last life insured, the 'death benefit' payment is required to be made to the estate of the last surviving owner, or to the nominated death beneficiary should you choose to nominate one. You should consider this aspect when completing your application and when selecting the date upon which a future transfer is to occur.

Should you wish to nominate a beneficiary to receive the proceeds of your policy in the event of the death of the last life insured prior to the future transfer date please also complete the nomination of beneficiary form (please refer to 'Beneficiaries' on page 8). If you wish to control how payment is made to your beneficiary upon death, the Wealth Preserver may also be activated (please refer to 'Wealth Preserver' on page 9).

If your nominated new owner dies before the transfer date

If your nominated new owner dies before the transfer date, the policy will not be transferred to your nominated new owner. Should your nominated new owner die before the transfer date it is important that you inform Lifeplan and revoke the transfer nomination.

Policy Owner and Life Insured

For any one Future Wealth Transfer investment there can be a maximum of two Policy Owners, who automatically become Life Insured upon application.

You cannot nominate or add another Life Insured. Upon the transfer being completed, the nominated new owner will be a Policy Owner and Life Insured.

Who can apply?

Applications can be made in the names of:

- individual or joint investors; and
- children aged 16 or above.

Applications cannot be made in the names of companies or trusts.

Stamp Duty

Stamp duty may also be payable in some States on transfer or assignment of your Lifeplan Bond. The applicable rates depend on the relevant State and will be advised to you before transfer.

Fees and other costs

DID YOU KNOW?

Small differences in both investment performance, fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your total fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the investment option as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs for particular investment options are set out on page 14 to 27.

The fees and costs set out here only relate to gaining access to the investment options through Lifeplan and do not include the fees and costs that relate to investing in the investment options.
2. The administration fee may be negotiated in certain circumstances. For more information see 'Wholesale clients' section under the heading 'Additional explanation of fees and costs'.

4. To cover the transaction costs we incur when investing in an investment option, a buy-sell spread (investing transaction costs) is deducted from your investment account or switch amount upon entry into an investment option. Refer to the buy-sell (investing transaction costs) section below for the buy-sell spread (investing transaction costs) of each investment option.

Additional explanation of fees and costs

Management fees and costs

The management fees and costs include amounts which are generally incurred in the day-to-day operation of a fund and include, for example: registry costs, legal, custodian services, compliance and related administration functions, accounting, printing, audit and asset management related fees.

Management fees and costs:

- are deducted directly from the investment option before unit prices or earnings are declared and not from your investment account;
- do not include fees or costs deducted from your investment account (such as adviser service fees or investing transaction costs);
- do not include any performance fees (refer to pages 25–26) and other costs charged by the fund managers.

The total estimated investment option management costs for all investment options in the Lifeplan Investment Bond are shown in the Management fees and costs table on the next page.

Administration fee rebate

An administration fee rebate may apply depending on the size of your Lifeplan Bond account balance(s) and the investment options in which you choose to invest. Where a tax deduction benefit on the administration fee has been passed on to you, an after tax fee rebate (net) will be credited to you.

The administration fee rebate is determined as follows:

Average investment balance	Annual rebate (gross)	Annual rebate (net)
\$0 to \$499,999	Nil	Nil
\$500,000 to \$9,999,999	0.30% p.a.	0.21% p.a.
\$10,000,000 or more	0.60% p.a. full rebate	0.42% p.a. full rebate

Example of administration fee rebate

Below is an example of how the administration fee rebate is calculated given the following accounts and balances:

Lifeplan Bond (first sole account)	\$1,100,000
Lifeplan Bond (joint account)	\$1,200,000
Total	\$2,300,000

Average investment balance	Balance x Rate	Annual rebate (gross)	Annual rebate (net)
First \$499,999	\$499,999 x 0.00%	Nil	Nil
\$500,000 to \$9,999,999	\$1,800,000 x 0.30% (gross) \$1,800,000 x 0.21% (net)	\$5,400 p.a.	\$3,780 p.a.
Total	–	\$5,400 p.a.	\$3,780 p.a.

The example calculation assumes an average investment balance of \$2,300,000 is maintained for 12 months.

Calculation and adjustment of the rebate

The rebate is calculated at the beginning of each month by applying 1/12th of the annual rebate to the relevant and qualifying portion of the average investment balance of the investment account during the previous month.

After the end of the financial year, in July or August, the rebate for that financial year will be allocated in the form of additional units in your nominated investment option(s).

Units are allocated using the unit price applicable on the day the transaction is processed. Any applicable investing transaction costs incurred from reinvesting the rebate are deducted from your investment account.

If you have more than one investment account, the total rebate will be allocated proportionally across each investment account.

If you are invested into more than one investment option, the rebate is allocated proportionally across each investment option.

In the event of a full withdrawal, your proceeds will include any unallocated rebate calculated to the end of the previous month. No rebate applies if you close your account within the cooling-off period.

We may (at our discretion) refuse to apply the administration fee rebate.

Are there any options which do not qualify for the rebate?

Investments in the First Sentier Institutional Cash investment option do not qualify for the administration fee rebate.

Taxation status of the rebate

The administration fee rebate forms part of the tax-paid investment earnings and is subject to the same tax treatment as normal tax-paid investment earnings. Refer to 'How are your returns on your investment taxed?' on page 4 for further taxation information.

Investment option management costs

The total estimated investment option management costs for all investment options in the Lifeplan Investment Bond are shown in the table below.

To assist you in making an informed investment choice based on current information about fees in each of the investment options, we publish a Fees and Costs Update on our website. This document will update any changes made to the fees disclosed in this PDS and will be available on our website as we are advised of any changes.

The Fees and Costs Update is incorporated by reference to this PDS. Please refer to the Fees and Costs Update once you have read this PDS, so you can check if there has been a change to any of the investment options you may select. You should print or retain a copy of the current Fees and Costs Update for your records.

- Investment option management costs are as at the date of this PDS. Refer to the Fees and Other Costs update on our website for updates to underlying investment option management costs disclosure.
- The gross administration fee is 0.60% p.a. It is reduced to 0.42% p.a. by way of a tax deduction benefit Lifepan is entitled to, which is passed on to investors. This deduction reduces the gross administration fee by 30%, with the net administration fee being the effective cost to each investment option.

- Total management fees and costs are inclusive of the investment option management cost and administration fee, this is the maximum amount that may be charged for the investment option and does not include the administration fee rebate (if applicable).
- The Total Management fees and costs (net) is not available for this investment option as the tax deduction benefit amount that Lifepan is entitled to is not available at the time of this PDS.

Buy-sell spread (Investing transaction costs) ("ITC")

The buy-sell spread (Investing transaction costs) is charged by us to cover the transaction costs incurred by the Fund when investing in each investment option, and aims to ensure that each investor shares the transaction costs associated with their investment decision to either enter or exit an investment option.

The cost is deducted from your investment or switch amount upon entry into an investment option. The ITC is comprised of both the buy and sell spread of the relevant investment option combined. It is not an additional fee paid to us or the fund manager of the investment option and is retained to cover the buy-sell spread transaction costs. The ITC does not include the management fees or costs, refer to the management fees and costs section.

The ITC for each investment option are set out in the table of Investment option transaction costs.

Transaction costs

Both the Fund and the investment options will each incur transaction costs.

The table below provides a summary of the estimated total transaction costs of each investment option, calculated on the option's average net asset value for the previous financial year for the investment option.

Transaction costs are an additional cost to you where they have not already been recovered by the ITC we charge.

Please note that past transaction costs are not a reliable indicator of future transaction costs.

Fund's transaction costs

The transaction costs incurred by the Fund are limited to the buy/sell spreads it incurs on investing and redeeming from the investment options and are incurred. The ITC is charged to pay for these transaction costs.

Investment option transaction costs

In managing the investments of an option, transaction costs such as brokerage, settlement costs, clearing costs, stamp duty, buy/sell spreads and other government charges may be incurred. These costs are generally paid from the assets of the investment option and are reflected in the investment option's unit price. Changes in an investment option's investment portfolio (or when new investments into or redemptions out of the investment option are paid) can also incur fees.

Transaction costs exclude borrowing costs, property operating costs and certain implicit transaction costs or market impact costs.

Transaction costs may include:

Buy-sell spreads

Buy-sell spreads are incurred when investors apply for or redeem units in an option. These costs are typically covered by the ITC. If an investment option were to buy units in an interposed vehicle then the associated buy-sell spread will comprise part of the purchase price. In this case, the costs of the buy-sell spread are paid from the assets of the option, and are reflected in the investment option's Unit Price.

Brokerage costs

The amount that is paid to a broker when securities are bought and sold. Investment options may incur brokerage costs are paid from the assets of an investment option, and are reflected in the investment option's Unit Price.

Stamp duty

Stamp duty is a tax imposed by State governments in all Australian States and Territories, which is typically triggered by the sale or transfer of real property. Stamp duty is payable at the time an investment option completes the purchase of a real property. It is paid from the assets of the investment option, and will be reflected in the investment option's Unit Price.

1. The gross transaction costs are the investment option's transaction costs before the investment option's buy and sell spread recovery is applied.
2. The net transaction costs are the investment option's transaction costs after the investment option's buy and sell spread recovery is applied.
3. The buy-sell spread (Investing transaction costs) is charged by us to cover the transaction costs incurred by the Fund when investing in each investment option, and aims to ensure that each investor shares the transaction costs associated with their investment decision to either enter or exit an investment option.

Stamp duty

Stamp duty may be payable in some States on establishment of a Lifeplan Bond and is currently absorbed by us.

Stamp duty may also be payable in some States on transfer or assignment of your Lifeplan Bond. The applicable rates depend on the relevant State and will be advised to you before transfer.

Performance fees

The performance fees of the Fund's investment options are estimated based on an average of the previous 5 financial years. Performance fees are between 0.00% p.a. to 2.42% p.a. of the net asset value of the investment option, based on our reasonable estimate having regard to the investment option performance and the investment option average asset value.

Estimated performance fees do not represent the actual performance fees you may incur and are an estimate only, with consideration to recent historic investment performance and recent changes in the net asset value of the investment option.

Estimated performance fees are not a guarantee of future performance and actual performance may differ. The exact amount of performance fees charged by an investment option is dependent on a number of factors, particularly the timing and relative value of periods of out-performance. Actual

performance fees charged will vary, depending on the returns of an investment option and may be higher or lower than the estimated performance fees currently disclosed. Generally, the greater the investment performance of an investment option, the greater the performance fee and therefore the greater the overall management fees and costs for the investment option.

Example performance fee calculation

Below is an example calculation of the performance fee based on the following assumptions:

- an investment balance of \$50,000 over a 12-month period;
- investment return over a 12-month period: 8.0% p.a.;
- fund manager benchmark or hurdle: 6.0% p.a.; and performance fee: 15.0% of the excess return.

Calculation of excess performance		Example in \$
Investment return	8.0% p.a.	\$4,000
Less benchmark return	6.0% p.a.	\$3,000
Excess performance above benchmark	2.0% p.a.	\$1,000

Performance fee calculation		Example in \$
Performance fee (15% x 2.0%)	0.3% p.a.	\$150

Remuneration of fund managers

Each of the fund managers of the investment options is entitled to be reimbursed for investment option management costs, any performance fees, a range of ongoing recoverable expenses such as operating expenses (including audit, taxation advice and offer document costs) and infrequent abnormal expenses (such as the costs of investor meetings) directly from any underlying portfolio they manage or operate.

Any performance fees and ongoing operating and infrequent abnormal expenses are additional to the investment option management costs.

All fees and costs charged or incurred by the fund managers are reflected in the daily unit prices we calculate for each investment option (except for the Lifeplan Capital Guaranteed investment option).

Adviser Remuneration

The Corporations Act 2001 contains provisions which regulate, and in some cases prohibit, payments to financial advisers and intermediaries by product issuers. Any arrangement by us to make payments or provide incentives to financial advisers and intermediaries will be entered into in compliance with the legislation.

You may agree with your financial adviser that advice fees will be paid for financial planning services your financial adviser provides for you. These advice fees are additional to the fees shown in the fees and costs summary, and are paid to your financial adviser, not to us.

Adviser service fees

You can choose to have payments to your financial adviser deducted from your account. The adviser service fee is not a fee paid to us.

You may request us to make:

- a one-off payment
- and/or one of the following:
 - i. a fixed term payment (being the term that is less than 12 months), or
 - ii. a regular ongoing payment to your financial adviser.

The amount, timing, and all other arrangements for payment are subject to agreement between you and your financial adviser. We are not a party to the agreement.

One-off adviser service fee

This adviser service fee is paid as a fixed dollar amount. If you invest into more than one investment option, the adviser service fee is deducted proportionally across each investment option. The adviser service fee is paid to your financial adviser shortly after it is deducted by way of a withdrawal of units from your investment.

Fixed term or ongoing adviser service fee

You can choose to pay an ongoing adviser service fee as:

- a fixed dollar amount deducted monthly from your account; or
- a percentage of your investment account balance calculated at the beginning of each month and based on your average investment balance during the previous month.

Only one of these fees can apply at any time – you cannot be charged both. The payment of either a fixed term or ongoing adviser service fee to your adviser will continue until the expiration of your arrangement with your adviser.

Your adviser is required to provide Lifeplan with a copy of the adviser service fee consent form, that both you and your adviser have signed and which notes the expiration date of the agreement. Should you not renew the agreement and associated consent with your adviser, Lifeplan will cease paying the fixed term or ongoing service fee payment to your adviser upon this expiration date.

These fees are normally deducted from your account within 10 business days after the end of the previous month. Adviser service fees are paid to your financial adviser shortly after they are deducted from your investment by way of a withdrawal of units from your investment. We may (at our discretion) refuse to deduct an adviser service fee.

Example of fixed dollar amount adviser service fee

If you request us to pay your financial adviser an adviser service fee of \$500 p.a., the amount deducted from your Plan will be \$500 p.a. or \$41.66 per month.

Example of percentage based regular ongoing adviser service fee

If you request us to pay your financial adviser a regular ongoing adviser service fee of 0.50% p.a., and assuming your average monthly investment balance is \$50,000, then the amount deducted from your Plan will be \$250 p.a. or \$20.83 per month (\$50,000 x 0.50% p.a.).

Other fees charges and costs

Dishonour fees are charged when your authorised direct debit dishonours due to insufficient funds. While we do not currently charge a dishonour fee we may, at our discretion, charge you for any costs we incur as a result of the dishonour by deducting the cost from your investment account.

Changes to fees and costs**Changes to fees and costs charged by Lifeplan**

We may change the fees and costs specified in this PDS, or introduce new fees or costs, at any time at our discretion in accordance with the governing rules of the Lifeplan Bond.

The governing rules of the Lifeplan Bond provide for:

- the contribution fee, establishment fee, withdrawal fee, termination fee and switching service fee to be set at a level determined at our discretion. The current levels of those fees are shown in the fees and costs summary above;
- a maximum management fee of 4% p.a. (of the daily gross market value) for each investment option. This maximum is provided for your information only and is not the current fee charged.

The management fee for each investment option is included in the current management fees and costs which are shown in the Additional Information Document.

We will provide you with 30 days written notice of any change or introduction of a fee or cost.

Changes to fees and costs charged by fund managers

Fees and costs which are set and charged by the fund manager (such as investment option management costs and investing transaction costs), may be changed or introduced without notice.

We will make sure you are charged no more than the total management fees and costs as set out in the current PDS unless we notify investors separately (for example, by publishing a 'Fees and Costs Update' or issuing a Supplementary PDS on our website).

We will also notify you of any changes in your next regular communication from us following a change.

Wholesale clients

'Wholesale clients' as defined under the Corporations Act 2001 may negotiate with us to pay reduced administration fees through the payment of fee rebates. From time to time, we may rebate some of our administration fees to employees within the Australian Unity Group so that they pay reduced fees. We do not enter into individual fee arrangements with other investors.

Tax

See 'Tax Effective Investing' section for more information.

Think differently

No capital gains tax

Switching between investment options in the Lifeplan Bond does not trigger capital gains tax for you.

**Important! 125% Rule**

To preserve the start date of your investment for the purpose of obtaining concessional tax treatment, your total contributions in an investment year must not exceed 125% of all contributions made in the previous investment year (refer to 'How are the returns on your investment taxed' on page 4 for further details).

Making withdrawals

You may withdraw all or part of your investment at any time, with a minimum withdrawal amount of \$500 (unless there is a higher minimum requirement imposed by the fund manager for a particular investment option). If your investment balance falls below \$1,000 then we may treat your request as a full withdrawal.

Withdrawal proceeds are normally paid within seven business days of receiving your request, but this may be longer in some circumstances.

If you have invested into multiple investment options, a partial withdrawal will be processed according to the underlying portfolio's investment option application following your most recent investment or switch allocation advice to us, unless you specify otherwise at the time of your withdrawal.

To withdraw, simply complete and return a Lifeplan Bond 'Withdrawal Form' online through the Investor Portal, or by accessing the form on our website at australianunity.com.au/wealth.

Regular withdrawal facility

**Information**

There may be tax implications for withdrawals made within 10 years of your investment start date (refer to 'How are withdrawals taxed' on page 4).

Switching between investment options

A minimum switch of \$500 per investment option applies. Switching may incur investing transaction costs (refer to 'Investing transaction costs' section).

Importantly, a switch is not treated as a withdrawal from your investment, which means there will be no personal tax impact (including capital gains tax) for you.

Regular switching facility

You may also activate a regular switching facility, which allows you to automatically switch a predetermined amount at predetermined intervals.

To activate simply complete and return a 'Switch Option Form' which is available from our website at australianunity.com.au/wealth, or by calling our Investor Services team on 1300 1300 38.

Incomplete applications

Please refer to the Application Form for further details.

How we process your transactions

If we receive your request prior to 1.30pm on a South Australian business day, your transaction will generally be processed using the unit price calculated as at the close of business that day.

Applications or requests received after this time will generally be processed using the unit price calculated as at the close of business the next business day.

Additional contributions received electronically via direct debit or BPAY® will generally be processed using the unit price calculated as at the close of business on the day that funds are confirmed as received.

We may reject, defer or request additional information relating to any instruction in your application to invest or switch at our discretion, without giving any reason. If we reject your application to invest, we will notify you and return your money with any interest earned being retained by us.

Delays or suspension of processing transactions or unit pricing

We may temporarily delay or suspend processing on any business day as a result of any of the following:

- normal accounting practices when the underlying investment option distributes;
- financial markets are closed or in other extraordinary circumstances;
- we are unable to obtain a price for valuation purposes;
- a fund manager delays or suspends transactions and/or unit pricing;
- there are liquidity issues in the investment option, the underlying portfolio or financial markets; or
- other events outside of our control that impact our ability to accurately calculate a unit price.

Understanding the risks of investing

What is investment risk?

When you invest through the Lifeplan Bond, you gain the ability to choose how to place your money across a wide range of investment options. All of these investment options involve some risk, and some will inherently carry more investment risk than others.

When referring to investment risk, we mean the possibility that:

- you may lose money on your investments, including the potential for your capital to fall below its initial investment value;
- investment returns can vary significantly from one year to the next; or
- your investment objectives will not be achieved.

What do you need to know to understand risk?

This information is a summary of the main risks that may affect your investment. You should consider these risks before investing. This information is, however, no substitute for professional financial planning advice that will address your particular tolerance for risk, and your understanding of how markets perform.

Your investment option selection

It is not just about choosing less risky options. It is important also that your investment meets your expected outcome, so choosing to allocate amongst sectors with the least market risk can, in fact, create the risk that you won't achieve the return that you anticipated.

In determining what investments are included within the investment options offered to you, we have constructed a menu of choices that enables an appropriate balance to be achieved in line with your risk appetite.

How can you manage your risk?

Before investing, we recommend that you consult with a licensed financial adviser who can help you understand the risks of investing and help you choose the investment option(s) that may be appropriate for your specific objectives and your individual tolerance for risk.

Otherwise, we recommend that you take time to reflect on your individual circumstances. There are numerous factors to consider both in investing into the Lifeplan Bond itself, and more importantly, before deciding which investment options you should select.

After you have invested in the Lifeplan Bond, you should regularly review your investment strategy and the performance of the asset classes and sectors in which you have invested. You should do this regularly, including with your financial adviser, as your needs and circumstances can change over time.

The risks that you should consider

Market risk	This risk relates to the performance of particular markets which impact investment returns. The share market for example, is impacted by a range of factors, many of which cannot be anticipated. These factors can include changes in the economic outlook, the level of interest rates, negative investor sentiment, world events and the risk that the political and/or legal framework (including taxation rules) may change and adversely impact your investments, particularly in emerging markets.
Interest rate risk	The market value of individual securities and asset classes can change in response to changes in interest rates. The impact of the response will differ depending on the asset class and specifics of the individual security. For example, the market value of a bond can be especially sensitive to changes in interest rates and will tend to fall when interest rates rise, negatively affecting investment returns. An Interest rate change doesn't just affect fixed interest investments however, as the impact of the change will potentially reflect in the value of property investing, as well as shares.
Inflation risk	This is the risk that the actual return upon the realisation of an investment has not exceeded the general CPI increases. This is a risk particularly relevant when investing in assets such as cash and fixed interest as they tend not to keep up with CPI increases as compared to growth assets. Investing in growth assets (such as shares or property), while generally considered more volatile, may actually reduce this risk over time.
Liquidity risk	Liquidity risk refers to the ease with which the value of an investment can be realised to cash. If for example, a particular investment cannot be sold quickly, it may need to be sold at a discount to attract buyers for a quick sale, or if it cannot be sold, it must be held to maturity. Such investments are referred to as being illiquid. A property investment, for example, is considered to have a higher measure of liquidity risk than a term deposit.
Currency risk	<p>If a portfolio is primarily invested in other countries, then the overall value of the investment is affected by the exchange rate between foreign currencies and the Australian dollar. This is referred to as currency risk. Gains or losses can be made, depending on movements in the value of the underlying investments and changes in currency exchange rates.</p> <p>A hedging strategy may be utilised by a fund manager, aimed at reducing or removing the currency risk from an investment portfolio, often through the use of derivatives. If you are considering choosing an investment with investments overseas included in its portfolio, you should seek advice from your financial planner to make sure you understand how the hedging affects your investment.</p>
Derivatives risk	<p>Fund managers utilise a range of derivative instruments, which are generally financial contracts used to manage certain risks in investment portfolios. The common examples are share price futures, options, forward foreign exchange contracts and interest rate swaps. Gains or losses can result from the use of derivatives. They can also increase other risks in the portfolio or expose the portfolio to additional risks. For example, the possibility that the derivative position is difficult or costly to reverse, that it does not perform as expected, or that the parties do not perform their obligations under the contract.</p> <p>When used for hedging purposes, derivatives will be used by fund managers to establish an offsetting position to the overall exposure of the risks being managed in the investment portfolio. For example, share price futures can be used in order to offset the risks in future movements in particular share prices.</p>
Fund manager risk	The risk that a fund manager will not perform to expectations.
Gearing risk	Gearing means that an investment portfolio borrows to increase the amount it can invest. This is regarded as an aggressive investing approach, and is generally undertaken by fund managers if there is a high degree of confidence in the performance of the assets comprising the portfolio. The effect of borrowing within a portfolio can magnify both gains and losses from the portfolio's investments. Investors in geared portfolios will face larger fluctuations in the value of their investment than of a comparable ungeared portfolio. For gearing to be profitable, the return from the strategy needs to exceed the interest and other costs incurred through borrowing.

Short selling	Short selling means that the fund manager sells a security it does not yet own in the expectation that the security's price will fall so that it can be bought back later at a profit. Losses will occur if the price of the security increases after it is sold. Short selling may also incur interest and other costs which need to be covered by the fall in the security's price for the transaction to be profitable. Short selling strategies can involve much greater risk than buying a security, as losses on purchased securities are restricted to the amount invested while losses on a short position can be much greater than the initial value of the security.
Regulatory and taxation risk	Changes to tax laws and/ or government policies that affect the tax treatment of investment bonds or the relevance to social security entitlements, could have an impact upon the actual value to you of your investment in the Lifeplan Bond. In addition, changes to tax laws in relation to such things as, for example, capital gains tax, the treatment of dividends, or foreign investment income, can also impact the return within, or the value of, an investment portfolio to which you have allocated moneys in Lifeplan Bond.
Unforeseen risks	Major external events including natural phenomena, pandemics, terrorist attacks or other events could affect investment options with exposure to properties, tenant operations and other funds your selected underlying Fund invests in. If your selected investment option is affected by any such events for which it has no insurance cover for, it could result in a loss of capital that could impact the unit prices and investor returns.

How investment risk is managed

The fund managers cannot eliminate all investment risks, but their specialist skills require that they do analyse, manage and aim to reduce the impact of risks through the use of carefully considered investment guidelines.

Understanding and comprehending the full extent of risk, and where it can occur, is often difficult for an investor, and that is why we strongly recommend:

- you carefully read the disclosure document for the investment options which appeal to you, and make sure that you understand where, and how, the portfolio is invested, and the risks involved in that portfolio of investments; and/ or
- most importantly, obtain advice from a financial planner who is required to understand your risk appetite and your investment objectives before giving you personal financial advice, to guide you along your investment journey.

How are investments valued?

Managing your investments

Your investment into a selected option is pooled with those of other investors, and processed into the underlying fund selected. These transactions with the fund manager are generally processed within two business days of receipt of your completed request. This means that variances may arise when comparing the performance of your investment in the Lifeplan Bond to the performance of the underlying portfolio even after allowing for management fees and costs, taxes and other expenses deducted by the fund managers and Lifeplan.

Valuation of unit-linked options

For the majority of the investments offered, valuations are usually undertaken each business day. As the value of the underlying assets held in managed funds can rise and fall, so too will the unit prices and the value of an investment into that underlying fund.

A unit price is calculated by taking the close of business day total market value of the assets held deducting management fees and costs, taxes and any other relevant expenses and then, to the net value, dividing the total number of units allocated. This process is generally completed within two business days.

Unit pricing is conducted on a 'forward' basis which is considered industry best practice. This means the next applicable valuation or unit price after the processing time of your application, switch or withdrawal is used.

If we consider it appropriate to do so, we may calculate unit prices more or less frequently than daily or may suspend the daily calculation of unit prices.

We calculate one unit price for each investment option offered in this PDS. We do not calculate different entry and exit unit prices as some products do, but may do so in the future if we consider it appropriate.

Valuation of Lifeplan Capital Guaranteed investment option

The unit price for the Capital Guaranteed investment option is constant at \$1.00.

The rate of return is paid by way of a bonus rate and allocated to your account as investment earnings. Bonus rates are declared annually and are calculated by taking into account the gross investment returns of the Fund, less expenses, taxation and any applicable prudential requirements.

It is calculated after 30 June and is allocated to your investment option account as at 30 June.

We automatically reinvest your bonus on your behalf after the bonus rate is declared each year. We may, at our discretion, declare a bonus rate and allocate a bonus more frequently than yearly.

If you withdraw or switch your investment in the Lifeplan Capital Guaranteed investment option in full before a bonus rate is declared, the amount withdrawn or switched will include earnings at the interim bonus rate. The interim rate is set by us based on actuarial advice and is a conservative estimate of the anticipated earning rate of the investment option.

How is 'capital' guaranteed?

The value of your investment in the Lifeplan Capital Guaranteed investment option is guaranteed. If you were to withdraw your investment in this investment option during a fall in investment markets, we guarantee to repay the amount of your investment, which is your balance and declared bonuses.

Our capital guarantee is supported by separate reserves that we are required to maintain in accordance with legislation and on the advice of the appointed actuary. These reserves are built up from the option's investment earnings before any bonus is allocated or before we receive our administration fee.

The capital guarantee only applies to your capital and declared bonuses, and not the future investment performance of the Fund.

We suggest you speak to your financial adviser to determine the investment options available from their recommended list.

Changes to investment strategies and Fund managers

Through the Lifeplan Bond we make a number of managed investment schemes available that are professionally managed by Australian and international fund managers. In determining what investment options are offered through our investment, we aim to provide enough diversification so investors can construct a portfolio in line with their risk and return objectives.

We regularly research new investment opportunities and we adopt an active and disciplined approach when selecting and monitoring the investment options. Subject to the governing rules of the Lifeplan Bond, we may, without prior notice to investors:

- add, remove or change a fund manager;
- add, close or cease to offer an investment option; and
- for any Lifeplan constructed investment options, change the investment objective, investment strategy or asset allocation of an option or underlying portfolio.

Fund managers may also revise their investment objective, investment strategy or asset allocation from time-to-time and without prior notice.

We may decide to close an investment option. In that case, all money currently invested in the investment option will need to move to another investment option.

You will be required to switch to another active investment option within 30 days after we provide you with written notification of its closure.

Any switch made under these circumstances will not attract investing transaction costs. We accept no liability in relation to investment gains or losses that may result from this action.

We will notify existing investors in affected investment options of any material change as soon as required by law. Updated information, such as information about closed investment options and changes to asset allocations can be obtained by visiting our website at australianunity.com.au/wealth, or calling our Investor Services team on 1300 1300 38.

Changes to the investment option and manager name

Fund managers may from time to time change:

- their name;
- the name of the investment options they manage; and
- transfer investment management to another company or entity in their corporate group.

If any of the above occurs, we will provide notification on our website.

Ethical investment considerations

We do not specifically take into account the fund manager's labour standards, environmental, social or ethical considerations in the selection and retention of them on our investment menu. However, we may consider these factors to the extent to which they impact on a fund manager's organisational stability, reputation and performance and therefore review our decision to include these investments on our investment menu. The fund managers have their own policies on the extent to which labour standards, environmental, social or ethical considerations are taken into account when making investment decisions. These policies are not specifically considered when selecting fund managers.

3. Anti-Money Laundering Laws and the Application Form

Anti-Money laundering

Australia's Anti-Money Laundering and Counter Terrorism Financing ('AML/CTF') laws requires Australian Unity to adopt and maintain an AML/CTF program. To meet this legal requirement, we need to collect certain identification information and documentation (Know Your Client ('KYC') Documents) from investors.

- If you are applying through a financial adviser:

Your financial adviser will assist you in providing the necessary identification documents prior to lodging the application.
- If you are submitting your application directly (without the assistance of a financial adviser):

The required identification documents are set out under 'Applying for different types of investment accounts' on page 7 of this Application Form.

Please note that any certified identification documents must be certified by an approved certifier. See 'Certification of documents' on page 6 of this Application Form for more details. Please note your identification document must be in date (or within two years of expiry for a passport). Existing investors may also be asked to provide KYC Documents as part of a re-identification process to comply with the AML/CTF laws.

Processing of applications or withdrawals will be delayed or refused if investors do not provide the required KYC Documents when requested.

Under the AML/CTF laws, Australian Unity is required to submit regulatory reports to the Australian Transaction Reports and Analysis Centre (AUSTRAC). This may include the disclosure of your personal information. Australian Unity may not be able to tell you when this occurs. As a result, if instructed by AUSTRAC, Australian Unity may be required to deny you (on a temporary or permanent basis) access to your investment. This could result in loss of the capital invested, or you may experience significant delays when you wish to transact on your investment.

We are not liable for any loss you may suffer because of compliance with the AML/CTF laws.

Politically Exposed Persons (PEP)

To comply with AML/CTF laws we require you to disclose whether you (or any of your beneficial owners) are, or have an association with, a PEP. A PEP is an individual who holds a prominent public position or function in a government body or an international organisation in Australia or overseas, such as a Head of State, or Head of a Country or Government, or a Government Minister, or equivalent senior politician. A PEP can also be an immediate family member of a person referred to above, including spouse, de facto partner, child, and a child's spouse or a parent. A close associate of a PEP, i.e. any individual who is known to have joint beneficial ownership of a legal arrangement or entity is also considered to be a PEP. Where you identify as, or have an association with, a PEP, we may request additional information from you.

Source of investable assets/wealth

Under AML/CTF laws, we are required to identify your source of investable assets/wealth.

Non-individual entities – your beneficial owners

Your beneficial owner means an individual who ultimately 'controls' you or owns you. 'Control' includes control (directly or indirectly) as a result of, or by means of trusts (including in the capacity as beneficiary, trustee or settlor), an agreement, an understanding or practice, and further includes the ability to exercise control over decisions about financial and operating policies. 'Owns' means ownership (either directly or indirectly) of 25% or more of you.

Under AML/CTF laws you are required to provide information about your Beneficial Owners for certain account types including:

- Australian incorporated or created entities such as:
 - unlicensed proprietary limited companies, not subject to regulatory oversight (note: not applicable for complying Australian Superannuation Fund investors); or
 - partnerships; or
 - unregistered trusts, including family trusts.
- Entities incorporated or created outside of Australia such as:
 - companies;
 - partnerships;
 - trusts; or
 - estates.

These account types will be required to complete Application Form Part B or the Beneficial Owner Information Form, which is available on our website at australianunity.com.au/wealth or by calling our Investor Services team on 1300 1300 38.

Automatic Exchange of Information (AEOI) regime

AEOI is the exchange of financial account information between tax authorities in relevant countries. This requires financial institutions including Australian Unity, to collect tax residency information from their customers.

AEOI is currently made up of two information sharing frameworks:

- The Foreign Account Tax Compliance Act (FATCA) which is a US framework to identify US citizens and tax residents with accounts in foreign (non-US) jurisdictions. This has been in place since 1 July 2014; and
- The Common Reporting Standard under which details of foreign tax resident accounts are shared between participating governments. Phased implementation of this regime commenced 1 January 2016 globally, and commenced in Australia from 1 July 2017.

Common Reporting Standard (CRS)

CRS is a global standard for collecting, reporting and exchanging financial information on foreign tax residents, which was initiated by the Organisation for Economic Cooperation and Development (OECD) to provide greater transparency and reduce offshore tax evasion in over 100 participating countries and jurisdictions.

In accordance with CRS, banks and other financial institutions in Australia are required to collect financial account information from their customers who are resident in countries other than Australia for tax purposes, and provide financial information to the Australian Tax Office where it will be exchanged with other participating countries. These changes are a legislative requirement, therefore must be complied with.

You must complete the Tax Residency Information Form (along with your Application Form) if the following is applicable:

- Your country of residence for tax purposes is outside of Australia, or you are a tax resident of multiple countries; or
- You are (or you are applying on behalf of) a 'non-individual' account type investing in this Fund (other than a complying Australian Superannuation Fund) and you are a tax resident of a country other than Australia; or
- Your Company/Regulated Trust/Unregulated Trust/Estate/Sole Trader/Partnership – Corporate has a Controlling Person¹ that is a tax resident of a country other than Australia.

The Tax Residency Information Form is available from our website at australianunity.com.au/wealth/TRIF. Units cannot be issued to you until you have provided a completed Tax Residency Information Form (if applicable).

-
1. A Controlling Person is an individual who directly or indirectly exercises control over the Entity.
For a company, this includes any beneficial owners controlling more than 25% of the shares in the company.
For a Trust this includes:
 - Trustees;
 - Settlers; or
 - Beneficiaries.For a partnership this includes:
 - All partners.Where there are no natural persons that control the Entity through ownership, the controlling person(s) may be a natural person(s) who could be a senior managing official responsible for strategic and/or financial decisions.

Identification document

Anti-money laundering

Anti-money laundering legislation helps combat money laundering and financing terrorism.

If your financial adviser is assisting with your transfer they will assist you in providing the necessary identification documents prior to submitting the transfer.

If you are submitting your transfer directly (without the assistance of a financial adviser), please refer below to the information that should be provided with your transfer Form.

We need to identify the underlying owner of each investment.

For example, a private company will need to provide supporting documentation to identify their directors and shareholders as well as the usual account opening information.

If you are an existing investor with Lifeplan and are making an additional investment using the same investor name, then you are not required to provide us with the required identification documents. However, we may, at our discretion, request these documents from you in an effort to comply with the anti-money laundering legislation.

Submitting your transfer Form without the assistance of a financial adviser

If you are submitting this request directly, without having consulted with a financial adviser, you must submit certified copies of your identification documents with this form

Tax Residency rules differ by country. Whether you are a tax resident of a particular country is often (but not always) based on the amount of time you spend in a country, the location of your residence or place of work. For the US, tax residency can be as a result of citizenship or residency.

If you have questions on how to define your tax residency status, please visit the OECD website ([oecd.org](https://www.oecd.org)) or speak to a professional tax adviser as we are not allowed to give tax advice.

Answer **both** tax residency questions:

Are you a tax resident of Australia? ☒ Yes ☐ No

Are you a tax resident in a country other than Australia? ☐ Yes ☒ No

Tax regulations require Australian Unity to establish the tax residency of investors. **Therefore if you answered 'Yes' to being a tax resident of a country other than Australia, you *must* complete the Tax Residency Information Form available at australianunity.com.au/wealth/TRIF and submit it with your application. Units cannot be issued to you until you have provided a completed Tax Residency Information Form.**
