Letter from the Chairman

23 September 2021

Dear Investor,

Talaria Global Equity Fund - Hedged ARSN 159 504 275 – Changes to Constitution and name

It is my pleasure to provide you with the Notice of Meeting and Explanatory Memorandum for the upcoming meeting to vote on the proposed changes to the Fund's Constitution.

The Responsible Entity has been investigating various options to facilitate enhanced flexibility for its Members. Currently, investors wishing to acquire or dispose of Units must complete application or redemption forms directly with the Responsible Entity.

The Responsible Entity is proposing to quote the Fund on Chi-X Australia (CXA), a Securities Market operated by Chi-X Australia Pty Limited and provide existing investors and potential investors in the Fund with an ability to acquire or dispose of Units on CXA.

As part of the proposal, the Responsible Entity is also proposing to rename the Fund as the Talaria Global Equity Fund – Currency Hedged (Managed Fund) in accordance with ASIC's guidance regarding naming of exchange traded products. The Responsible Entity also intends to consolidate Units in order to assist in facilitating a more favourable buy/sell spread for investors.

If approved, the effect of the proposed changes to the Fund's Constitution will allow the Responsible Entity to permit existing investors and potential investors to acquire or dispose of their Units:

- on CXA (which is not currently available) – this allows Members access to the Fund by buying or selling Units on a Securities Market in the same way that they may be able to buy or sell shares in listed securities; or
- off market by submitting an application for Units or a withdrawal request with the Responsible Entity (which is currently available and can often be quite a manual and lengthy process).

This structure that permits investors to acquire or dispose of Units either on or off a Securities Market is referred to as the 'Dual Access Model'. It is intended that the Responsible Entity will seek to implement the Dual Access Model in respect of the Units in the Fund.

Importantly, the Fund will retain the same investment strategy and key management team. The proposed changes to the Fund's Constitution and implementation of the Dual Access Model does not change either of these important elements.

There are a number of benefits for Members by quoting the Units on CXA. These include:

- **Transparency:** Members have greater transparency over the value of their investment in the Fund. An iNAV is calculated and disclosed at least every 15 seconds and, similar to listed securities, investors can generally trade at any time during CXA trading hours;
- **Flexibility:** Members are provided greater flexibility when acquiring or disposing of Units; either on CXA (which is not currently available) or off market by submitting an application for Units or a withdrawal request (which is currently available);
- **Scale:** Members are expected to benefit from the additional investment scale by increased assets under management created by an acceleration of the Fund's distribution; and
- **No change to fees and expenses:** the management fee payable to the Responsible Entity will not change. The Responsible Entity will itself bear the costs of seeking quotation on CXA and will also pay from its own account any ongoing fees to Chi-X Australia Pty Limited for maintaining quotation of the Quoted Class. The flexibility introduced by quotation will not therefore give rise to an increase in direct costs borne by the Fund.

Notice of Meeting and Explanatory Memorandum

A Dual Access Model allows Members access to the Fund by buying or selling Quoted Class Units on a Securities Market in the same way that they may be able to buy or sell shares in listed securities. Investors will have the ability to buy and sell Units on CXA at what is generally expected to be a tight spread to Net Asset Value per Unit given the price is generally referable to market prices of the Pricing Basket during the trading day. Where investors apply for or redeem their units directly with the Fund, the price of their units is determined by reference to the actual Net Asset Value per Unit of the Fund plus or minus the buy or sell spread.

If approved by Members, the proposed amendments to the Constitution permit (among other things) the Responsible Entity:

- to arrange for Units to be quoted on the CXA;
- to effect the Dual Access Model; and
- to do certain other things, and recover certain expenses (noting that quotation will not give rise to an increase in direct costs borne by the Fund), in connection with the above matters.

Please read the attached Notice of Meeting and the Explanatory Memorandum carefully.

Please note that your response is important. You are encouraged to vote on the resolutions by sending in your proxy form if you are unable to attend.

If you have any questions or wish to attend the meeting, then please feel free to contact our Wholesale Wealth Solutions team on 1300 407 698.

You can also email us at wholesalewealthsolutions@australianunity.com.au.

We appreciate your support and investment in the Fund.

Yours sincerely,

Rohan Mead

Chairman

Responsible Entity of the Talaria Global Equity Fund - Hedged

3. Important information about the Meeting

3.1 Background to the Proposed Amendments

The Responsible Entity is proposing to quote the Fund on Chi-X Australia (CXA), a Securities Market operated by Chi-X Australia Pty Limited and provide existing investors and potential investors in the Fund with an ability to acquire or dispose of Units on CXA.

As part of the proposal, the Responsible Entity:

- is also proposing to rename the Fund as the Talaria Global Equity Fund – Currency Hedged (Managed Fund) in accordance with ASIC's guidance regarding naming of exchange traded products; and
- intends to consolidate Units in order to assist in facilitating a more favourable buy/sell spread for investors.

If approved, the effect of the Proposed Amendments will allow the Responsible Entity to permit existing Members and potential investors to acquire or dispose of their Units:

- on CXA (which is not currently available); or
- off market by submitting an application for Units or a withdrawal request with the Responsible Entity (which is currently available).

This structure that permits investors to acquire or dispose of Units either on or off a Securities Market is referred to as the **Dual Access Model**. It is intended that the Responsible Entity will seek to implement the Dual Access Model in respect of the Units currently on issue and future Units that the Responsible Entity may issue.

Where investors apply for or redeem their units directly with the Fund, the price of their units is determined by reference to the actual Net Asset Value per Unit of the Fund plus or minus the buy or sell spread. Where investors buy or sell Units on-market, the price investors will pay or receive for their units is generally expected to be a tight spread to Net Asset Value per Unit given the price is generally referable to market prices of the Pricing Basket during the trading day.

As part of the implementation of the Dual Access model, the Responsible Entity intends to establish (notionally or otherwise) two sub registers on which Members will hold their Quoted Class Units:

- (a) an issuer sponsored sub register which will be a continuation of the current register for Members who do not wish to trade their Units on CXA or who are subsequently issued Units after submitting an application form; and
- (b) a CHESS sponsored sub register for Members who have purchased their Units or wish to trade their Units on CXA.

Under the Dual Access Model, Members holding their Quoted Class Units on one particular sub register can ask for their Quoted Class Units to be held on the other sub register, subject to any conditions which the Responsible Entity may require for the change in the sub register.

Further information regarding the Dual Access Model is provided in the Explanatory Memorandum accompanying this Notice of Meeting.

3.2 Summary of the Proposed Amendments

To implement the Dual Access Model, the Responsible Entity is seeking the approval of Members to amend the Constitution in accordance with the Annexure to this Notice of Meeting and Explanatory Memorandum.

In particular, the Proposed Amendments permit (among other things) the Responsible Entity:

- (a) to arrange for the Fund, or a Class, to be quoted on the CXA;

Notice of Meeting and Explanatory Memorandum

- (b) to effect the Dual Access Model, referred to in paragraph 3.1 above and explained further detail in the Explanatory Memorandum accompanying this Notice of Meeting; and
- (c) introduce certain other modernisation, administrative and incidental amendments in connection with and to facilitate the other amendments to the Constitution, including the recovery of certain amounts.

As set out in section 2.4 of the Explanatory Memorandum, the Responsible Entity will itself bear the costs of seeking quotation on CXA and will also pay from its own account any ongoing fees to Chi-X Australia Pty Limited for maintaining that quotation. The flexibility introduced by quotation of the Quoted Class will not therefore give rise to an increase in direct costs borne by the Fund.

Further detail regarding the Proposed Amendments is set out in the table below and in the Explanatory Memorandum. The Proposed Amendments themselves are described in full in the Annexure to this Notice of Meeting and Explanatory Memorandum.

Proposed Amendments to the Constitution	Recommendation
<p>(a) (in relation to existing provisions of the Constitution): Under the existing provisions of the Constitution, the Responsible Entity has broad powers to operate the Fund. The Proposed Amendments will not limit these powers. Rather, the Proposed Amendments grant the Responsible Entity with additional powers to issue a separate Class to be quoted on a Securities Market and to do all things necessary, desirable or reasonably incidental to effect the listing or quotation of the Fund or a Class, including without limitation to:</p> <ul style="list-style-type: none"> (i) apply to a Securities Market for the listing or the quotation of the Fund or a Class and associated participation in CHESS; (ii) effect the Dual Access Model (described in section 3.1 above); and (iii) amend the Constitution in relation to the same. <p>(b) (in relation to applications and withdrawals): Under the existing provisions of the Constitution, Units in the Fund may be acquired by applicants by submitting an application for Units to the Responsible Entity and paying the application money. Newly created Units are then issued to the applicant. Members may generally withdraw from the Fund by making a withdrawal request for some or all of its Units, and the Responsible Entity will ordinarily redeem the Units and pay the proceeds from the assets of the Fund. The Proposed Amendments permit the Responsible Entity to determine that, in respect of a particular Class or the Fund:</p> <ul style="list-style-type: none"> (i) it will be possible to acquire Units which are quoted either by making an application directly with the Responsible Entity, or by buying them on the Securities Market on which they are quoted (eg CXA); (ii) investors will be able, in normal circumstances, to dispose of their quoted Units either by selling them on the Securities Market (eg CXA) or submitting a withdrawal request to the Responsible Entity; 	<p>Directors of AUFM unanimously recommend that Members vote for the Resolution.</p>

-
- (iii) in respect of withdrawal requests, where action by the Operator makes it impractical for the Responsible Entity to satisfy a withdrawal request for Units in a Quoted Class then the Responsible Entity may extend the period required by the Constitution for satisfaction of the withdrawal request by the number of days during which such circumstances apply.
 - (iv) in respect of applications and withdrawal requests made directly to the Responsible Entity in respect of Units which are quoted, the Responsible Entity may make guidelines relating to the procedures for applications and withdrawals, such as:
 - (A) imposing obligations on applicants for Units and on Members who have made a redemption request or accepted a withdrawal offer;
 - (B) determining different valuation times for the determination of each of the variables in respect of the calculation of applications and redemptions;
 - (C) in order to facilitate the issue and redemption of Units, provide for Units to first be issued to or redeemed to a nominee for the applicant;
 - (D) permitting in-specie applications and redemptions in respect of some or all Applicants, on such terms as the Responsible Entity may determine; and
 - (E) set out consequences of failure to comply with any such procedures the procedures, such as the power of the Responsible Entity to cancel an issue or withdrawal of Units.
 - (v) in respect of applications and withdrawal requests for Quoted Class Units made only by a special category of person known as an Authorised Participant, the Responsible Entity may determine that an additional amount not exceeding \$10,000 is payable either to the Trust, to itself or some other person.
- (c) **(in relation to sub registers):** Under the existing provisions of the Constitution, Units are recorded in a single Unit register and maintained by the Responsible Entity. To facilitate the Dual Access Model, the Proposed Amendments provide that the responsible entity may (notionally or otherwise) establish sub registers for the Quoted Class Units including a CHESS sub register, for Members who have purchased their Quoted Class Units on a Securities Market (such as CXA) or have acquired them through applications and wish to trade them on the Securities Market. The Proposed Amendments permit the Responsible Entity to require a Member who holds their Quoted Class Units on a CHESS sub-register (notionally or otherwise) to have their Quoted Class Units the subject of
-

an off market withdrawal request moved to (or otherwise re-designated and recorded as being held on) an issuer-sponsored sub-register (or other sub-register). Conversely, a Member may need to request to move any Quoted Class Units they hold on the issuer-sponsored sub register (notionally or otherwise) to another sub register if they wish to sell the Quoted Class Units on-market. Members may also be required to provide such information as the Responsible Entity reasonably requires and, in relation to withdrawals, meet any other reasonable requirements of the Responsible Entity.

- (d) **(in relation to Fractional Units):** Under the current Constitution, Units in the Fund can be issued and redeemed in fractions. The Proposed Amendments provide that fractions of a Unit in a Class may not be issued or redeemed while the Units are quoted. If any fractions of Units are on issue at a time when the Units in a Class are to be quoted, the Responsible Entity may cancel the fractions with effect from the date of quotation. The reason for this is that fractions of Units cannot trade on a Securities Market.
- (e) **(in relation to Compliance with the Rules of the Securities Market):** The Proposed Amendments include both general and, where required, specific provisions such that:
 - (i) the Constitution is expressed to be subject to the relevant clearing, settlement and operating rules applicable to the relevant Securities Market; and
 - (ii) provisions of the Corporations Act, ASIC relief, the ASX Listing Rules and the official operating rules applicable to the relevant Securities Market (the **Rules**) will apply and are taken to amend the Constitution as required. The Members, under the Proposed Amendments, are taken to have authorised the Responsible Entity to make amendments of this kind, together with certain other compliance related amendments, to the Constitution. Additionally, where the Rules require certain acts to be done (or provisions to be incorporated), the Constitution is taken to require those acts to be done (or include those provisions). Where the Rules permit or prohibit certain acts to be done, such acts will be taken to have been permitted or prohibited by the Constitution. Where certain of the Rules permit or prohibit certain provisions, such provisions will be taken to have been included or excluded in the Constitution.
- (f) **(in relation to transfers):** The Proposed Amendments permit the Responsible Entity to impose certain restrictions, requirements and obligations in relation to the transfer of Quoted Class Units, including without limitation requesting the imposition of a holding lock to prevent a transfer of Units.
- (g) **(in relation to expenses of the Fund):** Under the current Constitution the Responsible Entity is indemnified and entitled to be reimbursed out of, or paid from, the assets of

the Fund in relation to any costs and expenses that arise in the proper performance of its duties as the Responsible Entity. The Proposed Amendments will not limit this entitlement, but seek to clarify that such costs and expenses will also include:

- (i) costs of quoting or listing the Units on a Securities Market, continuing compliance with the rules of a Securities Market, or in relation to any removal of Quoted Class Units from quotation or the suspension of Units from trading;
 - (ii) any fees payable to the operator of the Securities Market;
 - (iii) any fees, costs or expenses in connection with the engagement of third party service providers, including without limitation authorised participants, market makers, market making agents or other parties in respect of the Fund; and
 - (iv) any fee payable to any person for subscribing or agreeing to subscribe for Quoted Class Units, or procuring or agreeing to procure subscription for Quoted Class Units, or market making services in connection with Quoted Class Units.
- (h) **(in relation to meetings):** Under the current Constitution the Responsible Entity may convene and conduct meetings as the Responsible Entity determines. The Proposed Amendments include certain modernisation amendments to:
- (i) clarify that meetings may be convened and held either at a physical location; entirely virtually via the use of technology; or in combination; and
 - (ii) permit the Responsible Entity to amend the time and place of the meeting and the manner in which it is conducted, if it considers such decisions will not be prejudicial to the interests of Unit Holders as a whole.
- (i) **(in relation to distributions):** Under the current Constitution the term 'Distribution Period' is defined by reference to 'monthly' periods and permits the Responsible Entity to determine that different periods. The Responsible Entity has previously made a determination that 'Distribution Periods' are quarterly periods, and the Proposed Amendments simply reflect this determination.
- (j) **(in relation to financial years):** Under the current Constitution the 'last Financial Year' is defined as the period commencing on the 1 July immediately before the date the Trust terminates and ending on the date the Trust terminates. The Proposed Amendments clarify that the 'last financial year' ends on the date of the final distribution on winding up of the Trust, rather than the date of termination of the Trust. The current Constitution permits the Responsible Entity to make this determination without amending the Constitution.
- (k) **(in relation to switching funds):** the Proposed Amendments clarify that the Responsible Entity may

<p>permit a Member to elect that, on withdrawal of their Units, their net withdrawal proceeds be applied for interests in one or more other products, such as units in another fund offered by the Responsible Entity.</p> <p>(l) (modernisation, administrative and incidental amendments): the Proposed Amendments introduce certain other modernisation, clarificatory, administrative and incidental amendments in connection with and to facilitate the other amendments to the Constitution.</p>

EXPLANATORY MEMORANDUM

1. Background to the Meeting

Approval from Members is being sought to pass a special resolution the effect of which will be to amend the Constitution as follows:

- (a) **(in relation to existing provisions of the Constitution):** Under the existing provisions of the Constitution, the Responsible Entity has broad powers to operate the Fund. The Proposed Amendments will not limit these powers. Rather, the Proposed Amendments grant the Responsible Entity with additional powers to issue a separate Class to be quoted on a Securities Market and to do all things necessary, desirable or reasonably incidental to effect the listing or quotation of the Fund or a Class, including without limitation to:
 - (i) apply to a Securities Market for the listing or the quotation of the Fund or a Class and associated participation in CHESS;
 - (ii) effect the Dual Access Model (described in section 3.1 above); and
 - (iii) amend the Constitution in relation to the same.
- (b) **(in relation to applications and withdrawals):** Under the existing provisions of the Constitution, Units in the Fund may be acquired by applicants by submitting an application for Units to the Responsible Entity and paying the application money. Newly created Units are then issued to the applicant. Members may generally withdraw from the Fund by making a withdrawal request for some or all of its Units, and the Responsible Entity will ordinarily redeem the Units and pay the proceeds from the assets of the Fund. The Proposed Amendments permit the Responsible Entity to determine that, in respect of a particular Class or the Fund:
 - (i) it will be possible to acquire Units which are quoted either by making an application directly with the Responsible Entity, or by buying them on the Securities Market on which they are quoted (eg CXA);
 - (ii) investors will be able, in normal circumstances, to dispose of their quoted Units either by selling them on the Securities Market (eg CXA) or submitting a withdrawal request to the Responsible Entity;
 - (iii) in respect of withdrawal requests, where action by the Operator makes it impractical for the Responsible Entity to satisfy a withdrawal request for Units in a Quoted Class then the Responsible Entity may extend the period required by the Constitution for satisfaction of the withdrawal request by the number of days during which such circumstances apply.
 - (iv) in respect of applications and withdrawal requests made directly to the Responsible Entity in respect of Units which are quoted, the Responsible Entity may make guidelines relating to the procedures for applications and withdrawals, such as:
 - (A) imposing obligations on applicants for Units and on Members who have made a redemption request or accepted a withdrawal offer;
 - (B) determining different valuation times for the determination of each of the variables in respect of the calculation of applications and redemptions;
 - (C) in order to facilitate the issue and redemption of Units, provide for Units to first be issued to or redeemed to a nominee for the applicant
 - (D) permitting in-specie Applications and redemptions in respect of some or all Applicants, on such terms as the Responsible Entity may determine;
 - (E) set out consequences of failure to comply with any such procedures the procedures, such as the power of the Responsible Entity to cancel an issue or withdrawal of Units.

- (v) in respect of applications and withdrawal requests for Quoted Class Units made only by a special category of person known as an 'Authorised Participant', the Responsible Entity may determine that an additional amount not exceeding \$10,000 is payable either to the Trust, to itself or some other person.
- (c) **(in relation to sub registers):** Under the existing provisions of the Constitution, Units are recorded in a single Unit register and maintained by the Responsible Entity. To facilitate the Dual Access Model, the Proposed Amendments provide that the responsible entity may establish (notionally or otherwise) sub registers for the Quoted Class Units including a CHESS sub register, for Members who have purchased their Quoted Class Units on a Securities Market (such as CXA) or have acquired them through applications and wish to trade them on the Securities Market. The Proposed Amendments permit the Responsible Entity to require a Member who holds their Quoted Class Units on a CHESS sub-register (notionally or otherwise) to have their Quoted Class Units the subject of an off market withdrawal request moved to (or otherwise re-designated and recorded as being held on) an issuer-sponsored sub-register (or other sub-register). Conversely, a Member may need to request to move any Quoted Class Units they hold on the issuer-sponsored sub register (notionally or otherwise) to another sub register if they wish to sell the Quoted Class Units on-market. Members may also be required to provide such information as the Responsible Entity reasonably requires and, in relation to withdrawals, meet other requirements of the Responsible Entity.
- (d) **(in relation to Fractional Units):** Under the current Constitution, Units in the Fund can be issued and redeemed in fractions. The Proposed Amendments provide that fractions of a Unit in a Class may not be issued or redeemed while the Units are quoted. If any fractions of Units are on issue at a time when the Units in a Class are to be quoted, the Responsible Entity may cancel the fractions with effect from the date of quotation. The reason for this is that fractions of Units cannot trade on a Securities Market.
- (e) **(in relation to Compliance with the Rules of the Securities Market):** The Proposed Amendments include both general and, where required, specific provisions such that:
 - (i) the Constitution is expressed to be subject to the relevant clearing, settlement and operating rules applicable to the relevant Securities Market; and
 - (ii) provisions of the Corporations Act, ASIC relief, the ASX Listing Rules and the official operating rules applicable to the relevant Securities Market (the **Rules**) will apply and are taken to amend the Constitution as required. The Members, under the Proposed Amendments, are taken to have authorised the Responsible Entity to make amendments of this kind, together with certain other compliance related amendments, to the Constitution. Additionally, where the Rules require certain acts to be done (or provisions to be incorporated), the Constitution is taken to require those acts to be done (or include those provisions). Where the Rules permit or prohibit certain acts to be done, such acts will be taken to have been permitted or prohibited by the Constitution. Where certain of the Rules permit or prohibit certain provisions, such provisions will be taken to have been included or excluded in the Constitution.
- (f) **(in relation to transfers):** The Proposed Amendments permit the Responsible Entity to impose certain restrictions, requirements and obligations in relation to the transfer of Quoted Class Units, including without limitation requesting the imposition of a holding lock to prevent a transfer of Units.
- (g) **(in relation to expenses of the Fund):** Under the current Constitution the Responsible Entity is indemnified and entitled to be reimbursed out of, or paid from, the assets of the Fund in relation to any costs and expenses that arise in the proper performance of its duties as the Responsible Entity. The Proposed Amendments will not limit this entitlement, but seek to clarify that such costs and expenses will also include:
 - (i) costs of quoting or listing the Units on a Securities Market, continuing compliance with the rules of a Securities Market, or in relation to any removal of Quoted Class Units from quotation or the suspension of Units from trading;
 - (ii) any fees payable to the operator of the Securities Market;

- (iii) any fees, costs or expenses in connection with the engagement of third party service providers, including without limitation authorised participants, market makers, market making agents or other parties in respect of the Fund; and
 - (iv) any fee payable to any person for subscribing or agreeing to subscribe for Quoted Class Units, or procuring or agreeing to procure subscription for Quoted Class Units, or market making services in connection with Quoted Class Units.
- (h) **(in relation to meetings):** Under the current Constitution the Responsible Entity may convene and conduct meetings as the Responsible Entity determines. The Proposed Amendments include certain modernisation amendments to:
 - (i) clarify that meetings may be convened and held either at a physical location; entirely virtually via the use of technology; or in combination;
 - (ii) permit the Responsible Entity to amend the time and place of the meeting and the manner in which it is conducted, if it considers such decisions will not be prejudicial to the interests of Unit Holders as a whole.
- (i) **(in relation to distributions):** Under the current Constitution the term 'Distribution Period' is defined by reference to 'monthly' periods and permits the Responsible Entity to determine that different periods. The Responsible Entity has previously made a determination that 'Distribution Periods' are quarterly periods, and the Proposed Amendments simply reflect this determination.
- (j) **(in relation to financial years):** Under the current Constitution the 'last Financial Year' is defined as the period commencing on the 1 July immediately before the date the Trust terminates and ending on the date the Trust terminates. The Proposed Amendments clarify that the 'last financial year' ends on the date of the final distribution on winding up of the Trust, rather than the date of termination of the Trust. The current Constitution permits the Responsible Entity to make this determination without amending the Constitution.
- (k) **(in relation to switching funds):** the Proposed Amendments clarify that the Responsible Entity may permit a Member to elect that, on withdrawal of their Units, their net withdrawal proceeds be applied for interests in one or more other products, such as units in another fund offered by the Responsible Entity.
- (l) **(modernisation, administrative and incidental amendments):** the Proposed Amendments introduce certain other modernisation, clarificatory, administrative and incidental amendments in connection with and to facilitate the other amendments to the Constitution.

The Proposed Amendments are set out in the Annexure to this Notice of Meeting and Explanatory Memorandum.

2. Resolution

2.1 Why is the Resolution being proposed?

The Responsible Entity is proposing to quote the Fund on Chi-X Australia (CXA), a Securities Market operated by Chi-X Australia Pty Limited and provide existing investors and potential investors in the Fund with an ability to acquire or dispose of Units on CXA.

As part of the proposal, the Responsible Entity:

- is also proposing to rename the Fund as the Talaria Global Equity Fund – Currency Hedged (Managed Fund) in accordance with ASIC's guidance regarding naming of exchange traded products; and
- intends to consolidate Units in order to assist in facilitating a more favourable buy/sell spread for investors.

If approved, the effect of the proposed changes to the Fund's Constitution will allow the Responsible Entity to permit existing investors and potential investors to acquire or dispose of their Units:

- on CXA (which is not currently available) – this allows Members access to the Units by buying or selling Units on a Securities Market in the same way that they may be able to buy or sell shares in listed securities; or
- off market by submitting an application for Units or a withdrawal request with the Responsible Entity (which is currently available and can often be quite a manual and lengthy process).

This structure that permits investors to acquire or dispose of Units either on or off a Securities Market is referred to as the 'Dual Access Model'.

This flexible structure to acquire or dispose of Units either on or off a Securities Market is described in this memorandum as the **Dual Access Model**. To implement the Dual Access Model, the Responsible Entity is seeking the approval of Members to amend the Constitution to facilitate (among other things) the quotation of the Units on CXA.

A Dual Access Model allows Members access to the Fund by buying or selling Quoted Class Units on a Securities Market in the same way that they may be able to buy or sell shares in listed securities. Investors will have the ability to buy and sell Units on CXA at what is generally expected to be a tight spread to Net Asset Value per Unit given the price is generally referable to market prices of the Pricing Basket during the trading day. Where investors apply for or redeem their units directly with the Fund, the price of their units is determined by reference to the actual Net Asset Value per Unit of the Fund plus or minus the buy or sell spread.

It is intended that the Responsible Entity will seek to implement the Dual Access Model in respect of the Units currently on issue and future classes of Units that the Responsible Entity may issue.

As part of the implementation of the Dual Access model, the Responsible Entity intends to establish (notionally or otherwise) two sub registers on which Members will hold their Quoted Class Units:

- (a) an issuer sponsored sub register which will be a continuation of the current register, for Members who do not wish to trade their Quoted Class Units on CXA or who are subsequently issued Quoted Class Units after submitting an application form; and
- (b) a CHESS sponsored sub register for Members who have purchased their Quoted Class Units or wish to trade their units on CXA.

Under the Dual Access Model, Members holding their Quoted Class Units on one particular sub register can ask for their Quoted Class Units to be held on the other sub register, subject to any conditions which the Responsible Entity may require for the change in the sub register.

2.2 What if the Resolution is approved?

If the Resolution is approved, then:

- (a) the Constitution will be amended to incorporate the Proposed Amendments by the Responsible Entity executing a supplemental deed in the form produced to the Meeting and lodging it with ASIC;
- (b) the Responsible Entity will implement the Dual Access Model in respect of all existing Units on issue;
- (c) the Responsible Entity will establish (notionally or otherwise) two sub registers on which Members will hold their Units, an issuer sponsored sub register and a CHESS sponsored sub register;
- (d) the Responsible Entity will consolidate Units in order to assist in facilitating a more favourable buy/sell spread for investors; and

- (e) the Responsible Entity will provide Members with the results of the Resolution and provide further information on how holders of Units may use the Dual Access Model.

2.3 What if the Resolution is not approved?

If the Resolution is not approved, then:

- (a) the supplemental deed produced at the Meeting proposed to give effect to the Proposed Amendments will not be executed;
- (b) the Units will not be able to be quoted for trading on CXA and the Responsible Entity would not have the ability to offer existing Members and potential investors a Dual Access Model to acquire or dispose of Units on-market;
- (c) the Responsible Entity will not consolidate Units; and
- (d) Members and potential investors will be required to continue to submit to the Responsible Entity an application for Units or a withdrawal request with respect to the redemption of Units (both of which are currently available).

2.4 Advantages

If the Resolution is approved, then:

- (a) Members will be provided with additional flexibility in the way their Quoted Class Units are able to be acquired or redeemed, while the Fund will retain the same investment strategy;
- (b) the Responsible Entity will need to comply with enhanced disclosure requirements imposed both by CXA and section 675 of the Corporations Act, offering greater transparency, particularly as an iNAV is calculated and disclosed at least every 15 seconds;
- (c) the Dual Access Model may increase the size of the Fund, by attracting investors who do not invest in funds that are not traded on an exchange. An increase in the size of the Fund through increased assets under management created by an acceleration of the Fund's distribution may benefit existing Members by enhancing the Responsible Entity's bargaining power for the Fund in dealing with counterparties. Over time, expense recoveries per Quoted Class Unit may also reduce;
- (d) the quotation of Units on CXA allows Members who hold their Units on a broker sponsored sub register to determine the price they can trade at any time during the trading day;
- (e) the management fee payable to the Responsible Entity will not change;
- (f) the Responsible Entity will bear the costs of seeking quotation on CXA and will also pay from its own account any ongoing fees to Chi-X Australia Pty Limited for maintaining that quotation. The flexibility introduced by quotation will not therefore give rise to an increase in direct costs borne by the Fund;
- (g) the Responsible Entity will make arrangements to permit a withdrawing Member to elect that their net withdrawal proceeds may be applied for interests in certain other funds offered by the Responsible Entity; and
- (h) the Responsible Entity will have greater flexibility in relation to the manner in which meetings of Members are conducted.

2.5 Disadvantages and risks

If the Resolution is approved, then:

- (a) there will be increased costs associated with the operation of the Dual Access Model, which are in addition to the ordinary costs of operating a Fund that is not quoted. Such fees include those payable to the Market Operator and the market maker, the cost of running (notionally or otherwise) two sub registries and the costs associated with the calculation and dissemination of the indicative Net Asset Value. The Responsible Entity will bear the costs

of seeking quotation on CXA and will also pay from its own account any ongoing fees to Chi-X Australia Pty Limited for maintaining that quotation. The flexibility introduced by quotation will not therefore give rise to an increase in direct costs borne by the Fund.

- (b) there is a risk that the unit price for Units traded on the CXA may not accurately represent the Net Asset Value per Unit, although the traded price is generally expected to be a tight spread to the Net Asset Value per Unit. The reason for this is because the traded price completed on the CXA is generally referable to the market prices of the Pricing Basket during the trading day, which may or may not include the underlying assets of the Quoted Class (under the MPI disclosure model).

This risk could arise due to, for example, market volatility or stale prices in the underlying assets. To mitigate this risk, the Responsible Entity will engage a party experienced in calculating and disseminating the iNAV, which will assist Members and potential investors to track the fair value of the Quoted Class Units and compare it to the traded price to help decide when to buy and sell Quoted Class Units;

- (c) there will be increased operational risks introduced by the Dual Access Model, including risks associated with the additional commitments and obligations that the Responsible Entity will have in order to give effect to the Dual Access Model, such as under a Market Making Agreement; and
- (d) if you hold Fractional Units (i.e. Units where the numerical quantity is not a whole number), any fractions of such Units on issue at a time when the Units are to be quoted will be cancelled with effect from the date of quotation. The reason for this is that fractions of Units to be quoted cannot trade on a Securities Market. This will have a negligible impact on most Members. No compensation will be payable to Members for the fraction of Units cancelled, noting this is expected to be less than \$5.00 per Member.

2.6 Voting exclusions

Under the Corporations Act, AUFM and its associates are not entitled to vote their interests on the Resolution if they have an interest in the Resolution or matter other than as a Member of the Fund. AUFM and its associates will not vote on the Resolution.

2.7 Additional information - taxation

If the Resolution is approved at a general meeting of Members, the Proposed Amendments to the Constitution will not result in a capital gains tax (CGT) event or trust resettlement.

The consolidation of the Units will not result in a CGT event. The CGT tax cost base of a new consolidated unit (at the time of consolidation) is the sum of the original units that are consolidated to form the new unit. Each unitholder is taken to have acquired the new consolidated units at the time that they acquired the original units to which they relate.

2.8 Directors' recommendation

The directors of AUFM unanimously recommend that Members vote in favour of the Resolution.

1.1.2 ASIC relief

If ASIC grants relief or an exemption from, or modification to, the provisions of the *Corporations Act* (**relief**) on condition that this constitution contain certain provisions; then those provisions are taken to be incorporated into this constitution at all times at which they are required to be included in order for the relief to apply and prevail over any other provisions of this constitution to the extent of any inconsistency. However, if the relief is granted by class order (rather than specifically in relation to the Trust or the Responsible Entity) then the relief (and the provisions it requires) will be taken to be incorporated unless the Responsible Entity declares in writing that the relief is not to apply.

2. ESTABLISHMENT OF THE TRUST

2.1 Name of the Trust

The Trust formed under this constitution is called the "*Talaria Global Equity Fund - Currency Hedged (Managed Fund)*" or any other name the Responsible Entity determines.

- 2.5.1 interfere with the rights or powers of the Responsible Entity or its agents or their dealings with the Fund, the Assets, or any part of them;
- 2.5.2 exercise any rights, powers or privileges in respect of any Asset;
- 2.5.3 interfere in any way with the Trust or Fund constituted under this constitution; or
- 2.5.4 lodge a caveat in respect of any Asset.

2.6 Assets not available to another trust

The Assets are not available to meet any liabilities of any trust other than the Trust. The Responsible Entity must, while required by the *Corporations Act*, ensure that the Assets are identified clearly as the property of the Trust and held separately from the property of the Responsible Entity and the property of any other trust or syndicate.

2.7 Vesting of property

The Assets vest in the Responsible Entity on trust for the Unit Holders throughout the continuance of the Trust.

3. UNITS

3.1 Beneficial interest divided into Units

- 3.1.1 The beneficial interest in the Fund is divided into Units.
- 3.1.2 Each Unit confers an equal undivided interest.

3.2 Interest conferred by Units

A Unit:

- 3.2.1 confers on its registered holder in the Register an equal undivided interest in the Fund and Assets as a whole; and

- 3.2.2 does not confer any interest in any particular part of the Fund or in any Asset but only such interest in the Fund and Assets as a whole subject to the Liabilities.

3.3 Units confer identical rights and interests

Except in respect of any rights, obligations or restrictions attaching to any particular Unit or class of Units or as otherwise set out in this constitution, at any given time all of the Units into which the beneficial interest in the Fund is for the time being divided are of equal value and confer identical rights and interests.

3.4 Reconstruction of Units

The Responsible Entity may at any time consolidate, divide or issue Units as it determines.

3.5 Joint Tenancy

Persons registered in the Register jointly as the holder of a Unit hold as joint tenants and not as tenants in common unless the Responsible Entity otherwise agrees. Only the person whose name appears first in the Register as one of the joint holders of a Unit is entitled to delivery of any notices, cheques or other communications from the Responsible Entity. A notice, cheque or other communication given to that person is regarded as given to all the joint holders.

3.6 Classes of Units

- 3.6.1 The Responsible Entity may at any time, create and issue Units with any preferred, deferred or other special rights, obligations or restrictions, whether in relation to distributions, voting, return of capital, withdrawal, payment of calls or otherwise, that the Responsible Entity determines.
- 3.6.2 The Responsible Entity may not create and issue Units of different classes if to do so would affect existing Unit Holders' rights and entitlements to the Trust.
- 3.6.3 The rights attaching to Units in a class of Units may be varied or cancelled by the Responsible Entity in accordance with the *Corporations Act 2001* (Cth) as it may determine except where such variation or cancellation will have, or likely to have material adverse effect on:
- (a) existing Unit Holders, in which case such variation or cancellation may be made only with the consent of a Special Resolution of Unit Holders; or
 - (b) existing Unit Holders in that class only, in which case such variation or cancellation may be made only with the consent of a Special Resolution of the class of Unit Holders whose rights are being varied or cancelled.
- 3.6.4 All Units of a class will be of an equal value and confer identical interests and rights to, and be subject to the same conditions as, all other Units in that class. Separate classes of Units do not constitute separate trusts. Subject to its duties and the terms of issue of the relevant Units, the Responsible Entity may, at any time, categorise Units into classes or recategorise Units into a different class. The provisions of this clause 3 and any other relevant provisions of this constitution are to be read subject to this subclause.

3.6.5 Subject to the *Corporations Act* and the Operating Rules, the Responsible Entity may determine to establish a separate class or classes of Units in the Register to be Quoted Class Units, with the rights, obligations and restrictions attaching to such Units as determined by the Responsible Entity in accordance with this Constitution. A reference to a Class of Units in this Constitution includes a reference to a Quoted Class Units unless stated otherwise.

3.6.6 The rights attaching to each Unit in a Class are the same as the rights attaching to each other Unit in that Class, and accordingly all Units in the Class are fungible. Units are not of a different Class to other Units solely because some are recorded on a CHESS subregister and others are on an issuer-sponsored subregister or other register (notionally or otherwise).

3.7 Participation in CHESS

While the Trust or a Quoted Class of Units is Quoted, the Responsible Entity may at any time resolve that the Trust or a Quoted Class will participate in CHESS (including without limitation, any associated settlement process).

3.8 Registers

If the Trust's Units or a Quoted Class of Units are CHESS approved securities, in addition to the CHESS subregister, the Responsible Entity must (notionally or otherwise) provide for an issuer sponsored subregister, or a certificated subregister, or both (at least if the Trust or a Quoted Class of Units has restricted securities on issue).

4. CREATION OF UNITS

4.1 Application Price for Units

4.1.1 A Unit must only be issued at the Application Price calculated as follows:

$$\frac{\text{Net Asset Value}}{\text{number of Units on issue}} + \text{Transaction Costs}$$

However, where more than one class is on issue, the Application Price applicable for a class is determined by dividing the Net Asset Value that the Responsible Entity determines is properly referable to the class by the number of Units then on issue in that class and adding the proportion of Transaction Costs that the Responsible Entity determines is properly referable to the class.

4.1.2 Subject to clause 4.9, a Fractional Unit must be issued at a price equal to the fraction of the Application Price contributed by the Applicant.

4.2 Application for Units

4.2.1 A person who wishes to subscribe for Units must follow such procedures as the Responsible Entity requires. Any form may be transmitted electronically if approved by the Responsible Entity.

4.2.2 If Application is made for a Fractional Unit and the Applicant already holds a Fractional Unit, both Fractional Units will be treated as being consolidated into a Unit or another Fractional Unit or both, and the Application Price in respect of that Fractional Unit shall be adjusted accordingly.

4.3 Receipt of an Application

Where an Application is received by the Responsible Entity:

- 4.3.1 before such time on a Business Day as is determined by the Responsible Entity, the Application will be deemed to have been received on the same Business Day;
- 4.3.2 on or after such time on a Business Day as is determined by the Responsible Entity, the Application will be deemed to have been received no later than the next Business Day;
- 4.3.3 on any day which is not a Business Day, the Application will be deemed to have been received on the next Business Day following that day,

and the Application Price must be determined as at the next Valuation Time following deemed receipt of the Application.

4.4 Payments to the Responsible Entity

- 4.4.1 Payment in a form acceptable to the Responsible Entity, or a transfer of property of a kind acceptable to the Responsible Entity and able to be vested in the Responsible Entity or a custodian appointed by it (accompanied by a recent valuation of the property, if the Responsible Entity requires), must:
 - (a) accompany the Application;
 - (b) be received by or made available to the Responsible Entity or the custodian within such period before or after the Responsible Entity determines from time to time; or
 - (c) comprise a reinvestment of distribution in accordance with clause 10.10.
- 4.4.2 If the Responsible Entity accepts a transfer of property other than cash, any costs associated with the relocation or transfer of the property are payable or reimbursable by the Applicant.

4.5 Allotment of Units

- 4.5.1 A Unit created is regarded as allotted to the person entitled to it when:
 - (a) the Responsible Entity accepts the Application; or-
 - (b) the Responsible Entity receives the application money, or the property against which Units are to be issued is vested in the Responsible Entity,

whichever happens later, unless (while the Trust or a Class of Units is Quoted, in respect of a Quoted Class) the CHESS or the Operating Rules contemplates otherwise.
- 4.5.2 The Responsible Entity may set a minimum application amount for the Trust or for a class of Units and may alter that amount at any time. The Responsible Entity may set a different application amount for different classes of units.
- 4.5.3 Units issued against application money paid other than in cleared funds, or in consideration of a transfer of property, are void if the funds are not subsequently cleared or the property does not vest in the Responsible Entity within one (1)

month of receipt of the application or such other period as the Responsible Entity reasonably determines.

4.5.4 While Quoted Class Units are Quoted, such Units that are to be recorded (notionally or otherwise) on the CHESS subregister are created and issued in the manner and at the time CHESS or the Operating Rules, Settlement Rules or Clearing Rules contemplate.

4.6 Responsible Entity's discretion on application

The Responsible Entity may in its absolute discretion accept or reject in whole or in part any Application for Units without reason.

4.7 Confirmation

Subject to clause 4.6, the Responsible Entity must enter the Applicant on the Register (or where the person is a Unit Holder, alter the Register accordingly).

4.8 Cheques to be cleared

If the application money in respect of any Application is tendered by way of uncleared funds and the funds are not cleared, the Responsible Entity may elect to treat the Application as not having been made and make appropriate entries in the records of the Trust.

4.9 Fractional Units

4.9.1 ~~The~~Except as provided for in clause 4.9.2, the Responsible Entity may issue and allow to remain on issue a Fractional Unit to a Unit Holder. The provisions of this constitution relating to Units and Unit Holders apply to Fractional Units and holders of Fractional Units and the Fractional Unit has a value equal to the proportion which the value of the relevant Fractional Unit bears to the value of a Unit (calculated to such number of decimal places as the Responsible Entity determines). The Responsible Entity may add any Fractional Unit to, and consolidate it with, such other Fractional Units (if any) as are held by a Unit Holder.

4.9.2 In respect of a Quoted Class, Fractional Units may not be issued or redeemed while the Units are Quoted. If any Fractional Units are on issue at a time when such Units are Quoted, the Responsible Entity may cancel any such Fractional Units with effect from the date of Quotation. In the case of any such cancellation, any resulting excess property forms part of Trust property.

4.10 Deposit Advices

~~No~~Subject to the Corporations Act, no certificates will be issued for the Units. The Responsible Entity may send Unit Holders a Deposit Advice. The Deposit Advice is evidence of title to Units only to the extent that it is consistent with the entries on the Register.

4.11 Rounding

The Responsible Entity may round (either up or down) any amounts to be calculated or paid under this Constitution to such number of decimal places or to a whole cent as determined by the Responsible Entity.

4.12 Compliance with the Operating Rules for Applicants

Where a Class is Quoted, the Responsible Entity will comply with the Operating Rules applicable to the issue and the conditions and restrictions of any applicable ASIC relief.

4.13 Authorised Participant Application Amount

In respect of an application for Quoted Class Units by an Authorised Participant, the Responsible Entity may determine that, in addition to the Application Price, there shall be payable an amount not exceeding \$10,000, as the Responsible Entity determines (Authorised Participant Application Amount). If applicable, such amount will be payable for the benefit of the Trust or any person the Responsible Entity determines (including itself or an Associate). Without limitation the Responsible Entity may deduct such amount from application monies that are payable in accordance with the Constitution.

5. TRANSFER AND TRANSMISSION OF UNITS

5.1 Procedure

Subject to the Corporations Act, the Settlement Rules, the Clearing Rules, the Operating Rules and the terms of any ASIC relief, each as applicable, the provisions in clauses 5.2 to 5.9 (the General Transfer Provisions) apply in respect of a transfer of Units subject to any determination by the Responsible Entity under clause 5.10 to the contrary.

5.15.2 Transfer or transmission of Units permitted

Subject to this constitution, Units may be transferred or transmitted provided that as a result of the transfer no Unit Holder would hold less than the Minimum Holding.

5.25.3 Form of Transfer

5.2.15.3.1 All transfers of Units must be in a form approved by the Responsible Entity and be presented for registration:

- (a) accompanied by such evidence as may be required by the Responsible Entity; and
- (b) if necessary, duly stamped.

5.35.4 Evidence to accompany transfer

An instrument of transfer of Units must be accompanied by such evidence (if any) as the Responsible Entity requires to prove the transferor's title or right to transfer the Units. A transfer is not effective until registered.

5.45.5 Responsible Entity may decline to register any transfer

5.4.15.5.1 The Responsible Entity may in its absolute discretion and acting reasonably accept or reject a request to transfer Units. The Responsible Entity is not required to provide reasons for such refusal.

5.4.25.5.2 Any transfer the Responsible Entity refuses to register shall be returned to the Unit Holder on request within twelve (12) months of the Responsible Entity giving the Unit Holder notice of its refusal to register the transfer, except in the case of suspected fraud.

5.55.6 Recognition of title

If a Unit Holder dies, or becomes subject to a legal disability, the survivors or survivor where the deceased was a joint holder and the executors or administrators of the deceased where the Unit Holder was a sole holder, or the legal personal representative in any other case, are the only persons entitled to be recognised by the Responsible Entity as having any title to the Units registered in the Unit Holder's name.

5.65.7 Registration of new holder in certain circumstances and election

~~5.6.15.7.1~~ Any person becoming entitled to any Units in consequence of the death, bankruptcy or other disability of a Unit Holder (**Representative**) may, upon such evidence being produced as is required by the Responsible Entity, elect either to be registered as the holder of the Units or to have some other nominated person registered as the transferee of the Units.

~~5.6.25.7.2~~ A Representative that elects to be registered as the holder of the Unit must deliver or send to the Responsible Entity an election notice in writing in a form approved by the Responsible Entity and signed by the Representative.

~~5.6.35.7.3~~ If the Representative elects to have the Representative's nominee registered, the Representative and the nominee must testify the election by delivering or sending to the Responsible Entity a transfer to the nominee.

~~5.6.45.7.4~~ All the provisions of this constitution relating to the registration of transfers of Units apply to a notice or transfer under this clause 5.7~~5.6~~ as if the death, bankruptcy, insanity or other disability of the Unit Holder had not occurred and the notice or transfer was a transfer executed by the Unit Holder.

5.75.8 Good discharge

A Representative is entitled to receive, and may give a discharge for, all moneys payable in respect of the Units but the Representative is not entitled to receive notices of, or to attend or vote at, any meetings of Unit Holders until the Representative's name is entered in the Register as the Unit Holder in respect of the Units.

5.85.9 Suspension

The Responsible Entity may suspend the registration of transfers and transmissions of Units for up to 30 days in aggregate in each calendar year.

5.10 Transfer if Quoted

5.10.1 Subject to the Corporations Act, the Settlement Rules, the Clearing Rules, the Operating Rules and the terms of any ASIC relief, each as applicable, to the extent of any inconsistency between the General Transfer Provisions and the provisions in clauses 5.10 to 5.13 (the **Specific Transfer Provisions**), the Specific Transfer Provisions apply in respect of a Quoted Class of Units. Subject to the Corporations Act, the Settlement Rules, the Clearing Rules, the Operating Rules and the terms of any ASIC relief, each as applicable, the Responsible Entity may from time to time determine, without limitation, that some or all of the Specific Transfer Provisions:

(a) do not apply;

(b) apply in substitution of some or all of the General Transfer Provisions; and/or

(c) apply only in respect of certain persons, Classes or Units.

5.10.2 Subject to this Constitution the Settlement Rules, the Clearing Rules, the Operating Rules and the terms of any ASIC relief, each as applicable, if a Unit is Quoted, it is transferable:

(a) as provided by the Operating Rules; or

(b) by any other method of transfer which is required or permitted by the Corporations Act and the Operator as applicable.

5.10.3 If a duly completed instrument of transfer:

(a) is used to transfer a Unit in accordance with clause 5.10.2(b); and

(b) is left for recording in the Register at the Trust's registry, duly stamped if required and accompanied by any information that the Responsible Entity properly requires to show the right of the transferor to make the transfer,

the Responsible Entity must, subject to the Responsible Entity's powers, register the transferee as the holder of the Units. Except as provided by any applicable Operating Rules, a transfer is not effective until the transferee's name is entered into the Register as the holder of the Units and while the Units are approved for settlement by CHESS in accordance with the Settlement Rules, are dealt with as CHESS contemplates and the Operating Rules make such transfer effective.

5.11 Responsible Entity may request holding lock or refuse to register transfer

In respect of Units which are Quoted, and if permitted to do so by the Operating Rules, the Responsible Entity may:

5.11.1 request the operator of the CS Facility or any other person appointed to maintain the Register, as the case may be, to apply a holding lock to prevent a transfer of such Units from being registered on the CS Facility's sub register or registered on an issuer-sponsored sub register, notionally or otherwise, as the case may be; or

5.11.2 refuse to register a transfer of such Units to which paragraph clause 5.11.1 does not apply.

5.12 Responsible Entity must request holding lock or refuse to register transfer

In respect of Units which are Quoted, the Responsible Entity must:

5.12.1 request the operator of the CS Facility or any other person appointed to maintain the Register, as the case may be, to apply a holding lock to prevent a transfer of such Units from being registered on the CS Facility's sub register or registered on an issuer sponsored sub register, notionally or otherwise, as the case may be; or

5.12.2 refuse to register any transfer of Units to which clause 5.12.1 does not apply, if the Corporations Act or Operating Rules requires the Responsible Entity to do so.

5.13 Notice of holding locks and refusal to register transfer

5.13.1 If, in the exercise of its rights under clauses 5.11 and 5.12, the Responsible Entity requests the application of a holding lock to prevent a transfer of Units or

refuses to register a transfer of Units, it must, within two months after the date on which the transfer was lodged with it, give written notice of the request or refusal to:

- (a) the holder of the Units;
- (b) the purported transferee; and
- (c) the broker lodging the transfer, if any.

5.13.2 Failure to give notice does not, however, invalidate the decision of the Responsible Entity.

6. POWERS OF THE RESPONSIBLE ENTITY

6.1 Investment policy for the Trust

Without limiting clause 6.2, the Responsible Entity may in its capacity as trustee of the Trust, invest in, dispose of, or otherwise deal with property and rights in its absolute discretion and the Responsible Entity may vary its investment policy from time to time.

6.2 Responsible Entity to manage the Trust

- 6.2.1 Subject to this constitution, the Responsible Entity has all the powers in respect of the Trust of a natural person, as absolute owner of the Assets and acting in its personal capacity, having regard to its role as the responsible entity.
- 6.2.2 The Responsible Entity has absolute discretion as to the investment of any part of the Trust's Assets and as to the purchase, sale, transfer, exchange or alteration of any of those Assets.
- 6.2.3 The Responsible Entity may invest in a Related Trust. The Responsible Entity may be remunerated and reimbursed for costs out of any Related Trust to the extent permitted by law.
- 6.2.4 The Responsible Entity may in its absolute discretion decide how and when to exercise its powers.

6.3 Responsible Entity's Powers

Subject to the proper performance by the Responsible Entity of its duties under this constitution and at law, the Responsible Entity in its capacity as the responsible entity of the Trust has power to:

- 6.3.1 borrow and raise money for the purposes of the Trust and to grant security over the Assets;
- 6.3.2 enter into any derivatives transactions; and
- 6.3.3 to incur all types of obligations and liabilities.

6.4 Appointment of custodian

The Responsible Entity may (or if required by law, must) appoint a custodian of the Assets. The appointment may be in a form the Responsible Entity and custodian choose. The Responsible Entity may include in the appointment document any

provisions the Responsible Entity thinks fit to protect and assist those dealings with the custodian.

6.5 Agents

The Responsible Entity, by power of attorney or otherwise, may authorise any person or persons (whether or not being persons related to, or associated with, the Responsible Entity) to do anything that the Responsible Entity may do, including to hold any Asset and to execute documents on its behalf. If the Responsible Entity appoints a custodian to hold Assets, the custodian acts as the agent of the Responsible Entity.

6.6 Absolute discretion

The Responsible Entity has an absolute discretion as to the manner, mode and time of exercise of the powers, authorities and duties conferred on it under this constitution or the *Corporations Act*.

6.7 Appointment of advisers

The Responsible Entity may engage any agent, adviser, valuer, broker, underwriter or contractor to advise, provide services or assist the Responsible Entity in managing the Trust or dealing with any Asset or Liability.

6.8 Power to implement listing or Quotation

6.8.1 Without limiting anything in this clause 6, the Responsible Entity may from time to time determine that the Trust or a Class of Units is to be, or shall become, listed or Quoted (including any Units that are already on issue) and has the power to and is authorised to do all things which it considers necessary, desirable or reasonably incidental for the purposes of:

- (a) implementing or effecting the listing or Quotation of the Trust or a Class of Units;
- (b) removal of the Trust or a Class of Units from listing or Quotation; or
- (c) suspension of the Trust or a Class of Units from trading on a Securities Exchange,

and those powers apply notwithstanding any other provision of this Constitution and for this purpose the Responsible Entity is authorised on its own behalf and on behalf of each Unit Holder as the Unit Holder's agent or attorney to do all things necessary to effect to such matters. For the avoidance of doubt, a determination by the Responsible Entity that an existing Class of Units shall be a Quoted Class of Units does not constitute a conversion or otherwise change the Class in which such Units exist.

6.8.2 Without limiting clause 6.8.1, the Responsible Entity has the power to and is authorised to:

- (a) apply to a Market for the listing or the Quotation of the Trust or a Class of Units and for this purpose the Responsible Entity may on its own behalf or on behalf of each Unit Holder do all things necessary to effect listing or Quotation;

- (b) where the Trust or Class is to be listed or Quoted, as applicable, incorporate provisions in relation to the:

 - (i) issue of Units, options and financial instruments (as relevant), including but not limited to, the Application Price (including in the circumstances of an initial public offer, placement, distribution reinvestment or unit purchase plan), the terms of issue of any options or financial instrument and the right, if any, to redeem Units;
 - (ii) circumstances in which a transfer of Units, options or financial instruments in the Trust or Class of Units that has been listed may be undertaken in accordance with the Corporations Act, applicable listing rules and the Settlement Rules (as relevant); and
 - (iii) the offer of reward or bonus units, proportional takeover bids, buy back of Units or redemption facilities;
- (c) determine that where the Trust or Class is to be listed, the applicable listing rules will take precedence over the Constitution and if any provision of the Constitution is or becomes inconsistent with the applicable listing rules, the applicable listing rules will prevail; and
- (d) make any other amendments that the Responsible Entity considers are necessary or desirable in order to facilitate or give effect to the listing or Quotation.

6.9 Power to implement a dual Quoted and unquoted structure for Quoted Class Units

6.9.1 Without limiting clause 6.8, the Responsible Entity, in respect of a Quoted Class of Units, has the power to do all things which it considers necessary, desirable or reasonably incidental for the purposes of implementing or effecting a dual Quoted and unquoted structure for a Quoted Class of Units.

6.9.2 Without limiting clause 6.9.1, the Responsible Entity has the power to and is authorised to:

- (a) allow persons to apply for Units in that Quoted Class either by applying for the Quoted Class Units directly with the Responsible Entity or by buying Quoted Class Units on-market (including the right for the Quoted Class Units to also be able to be issued in any other way that CHESS or the relevant Operating Rules contemplate);
- (b) allow for Unit Holders to redeem Units in that Quoted Class either by redeeming the Quoted Class Units directly with the Responsible Entity or by selling the Quoted Class Units on-market (including the right for the Quoted Class Units to also be able to be redeemed in any other way that CHESS or the relevant Operating Rules contemplate);
- (c) provide, notionally or otherwise, both a CHESS subregister and an issuer sponsored subregister (or other subregister) and allow for Unit Holders to move, or require that Unit Holders move (where relevant and notionally or otherwise), between the CHESS subregister and the issuer sponsored subregister (or other such other subregister) and require that,

in connection with any such transfer, Unit Holders provide such information as the Responsible Entity may reasonably require;

- (d) make any other amendments that the Responsible Entity considers are necessary or desirable for the purposes of implementing or effecting a dual Quoted and unquoted structure for a listing or Quotation; and
- (e) require that a Unit Holder provide such information to the Responsible Entity as the Responsible Entity may from time to time reasonably require.

6.10 Application and redemption procedures

6.10.1 Subject to the Corporations Act and applicable Operating Rules, and without limiting anything in this clause 6, the Responsible Entity may from time to time prescribe procedures relating to the issue and redemption of Units in a Quoted Class which supplement the procedures in this Constitution, including but not limited to:

- (a) impose obligations on applicants for those Units and on Unit Holders who have made a redemption request or accepted a withdrawal offer;
- (b) determining a different Valuation Time for the determination of each of the variables in clause 4.1 in respect of Applications and clause 7.1 in respect of redemptions.
- (c) in order to facilitate the issue of Units, provide for Units in that Class the subject of an application to first be issued to a nominee for the applicant approved by the Responsible Entity, with such nominee being required to follow certain directions of the Responsible Entity, following which the Units are to be transferred to the applicant;
- (d) in order to facilitate the redemption of Units in that Class, require a Unit Holder who has made a Withdrawal Request or accepted a withdrawal offer to transfer the Units which are to be redeemed to a nominee for the Responsible Entity approved by the Responsible Entity;
- (e) permitting in-specie Applications and redemptions in respect of some or all Applicants, on such terms as the Responsible Entity may determine; and
- (f) set out consequences of failure to comply with the procedures, such as the power of the Responsible Entity to cancel an issue or withdrawal of Units.

6.10.2 Unless the Responsible Entity agrees otherwise, in respect of Units in a Quoted Class each applicant for Units and each Unit Holder who makes a Withdrawal Request or accepts a withdrawal offer is bound by and must comply with the procedures prescribed under this clause 6.10 as in force from time to time.

7. WITHDRAWAL PRICE OF UNITS

7.1 Withdrawal Price of Units

7.1.1 The Withdrawal Price in respect of a Unit will be calculated as follows:

$$\frac{\text{Net Asset Value}}{\text{number of Units on issue}} - \text{Transaction Costs}$$

However, where more than one class is on issue, the Withdrawal Price applicable for a class is determined by dividing the Net Asset Value that the Responsible Entity determines is properly referable to the relevant class by the number of Units then on issue in that class and then subtracting the proportion of Transaction Costs that the Responsible Entity determines is properly referable to the class.

7.2 Variables

The Withdrawal Price must be determined:

- 7.2.1 while the Trust is Liquid, as at the next Valuation Time after the Responsible Entity accepts the withdrawal request; or
- 7.2.2 while the Trust is not Liquid, at the time the withdrawal offer closes.

7.3 Rounding

The Withdrawal Price may be rounded as the Responsible Entity determines.

8. WITHDRAWAL PROCEDURES

8.1 Request for withdrawal

- 8.1.1 A Unit Holder may make a request for the withdrawal of some or all of its Units in any manner approved by the Responsible Entity and while the Trust is Liquid, the Responsible Entity must give effect to that request at the time and in the manner set out in this clause 8.

8.1.2 In respect of Units of a Quoted Class, the Responsible Entity may require a Unit Holder who holds their Quoted Class Units on a CHESS sub-register (notionally or otherwise):

- (a) to have their Quoted Class Units the subject of a Withdrawal Request notionally or otherwise moved to (or otherwise re-designated and recorded as being held on) an issuer sponsored sub-register (or such other sub-register the Responsible Entity reasonably determines);
 - (b) to provide such information as the Responsible Entity reasonably requires; and/or
 - (c) meet any other reasonable requirements the Responsible Entity may determine.
- prior to processing a Withdrawal Request.

8.2 Receipt of a Withdrawal Request

Where a withdrawal request is received by the Responsible Entity:

- 8.2.1 before such time on a Business Day as is determined by the Responsible Entity, the withdrawal request will be deemed to have been received on the same Business Day;
- 8.2.2 on or after such time on a Business Day as is determined by the Responsible Entity, the withdrawal request will be deemed to have been received no later than the next Business Day;
- 8.2.3 on any day which is not a Business Day, the withdrawal request will be deemed to have been received on the next Business Day following that day.

8.3 Unit Holder may not withdraw request

A Unit Holder may not withdraw a withdrawal request unless the Responsible Entity agrees.

8.4 When Trust is Liquid

Clauses 8.5 to 8.12 apply only while the Trust is Liquid.

8.5 Responsible Entity to satisfy

The Responsible Entity must satisfy a withdrawal request in respect of a Unit by payment from the Assets of the Withdrawal Price. The payment must be made within:

- 8.5.1 21 days of receipt of the request; or
- 8.5.2 such later time as the Responsible Entity may determine having regard to its ability to realise or value any of the Assets and to the best interests of Unit Holders provided such later time is as soon as reasonably practicable; and
- 8.5.3 such longer period as allowed by clause 8.6.

8.6 Extension of request period

If the Responsible Entity has taken all reasonable steps to realise sufficient Assets to satisfy a withdrawal request and is unable to do so due to one or more circumstances outside its control such as restricted or suspended trading in the market for an Asset [or where action by the Operator makes it impractical for the Responsible Entity to satisfy a withdrawal request for Units in a Quoted Class](#), the period allowed for satisfaction of the request may be extended by the number of days during which such circumstances apply.

8.7 Minimum withdrawal

The Responsible Entity need not give effect to a withdrawal request in respect of Units having an aggregate Withdrawal Price of less than the minimum application amount or such other amount as determined by the Responsible Entity from time to time unless the withdrawal request relates to the balance of that Unit Holder's holding of Units.

8.8 No payment from Responsible Entity's own fund

The Responsible Entity is not obliged to pay any part of the Withdrawal Price out of its own funds.

8.9 Setting of minimum holding amount

The Responsible Entity may set a Minimum Holding amount for the Trust and alter that amount at any time.

8.10 Withdrawal to below Minimum Holding

If compliance with a withdrawal request would result in the Unit Holder holding Units with an aggregate Withdrawal Price which is less than the then current Minimum Holding, the Responsible Entity may treat the withdrawal request as relating to the balance of that Unit Holder's holding of Units.

8.11 Increase in Minimum Holding

If the Responsible Entity increases the Minimum Holding, the Responsible Entity may after giving 30 days' notice to a Unit Holder who holds Units with an aggregate Withdrawal Price less than the then current Minimum Holding, effect the withdrawal of that Unit Holder's holding of Units without the need for a withdrawal request.

8.12 Discretionary redemption

If the Responsible Entity is not obliged to give effect to a withdrawal request, it may effect the redemption of some or all of the Units which are the subject of the request.

8.13 When Trust is not Liquid

While the Trust is not Liquid:

8.13.1 a Unit Holder may withdraw from the Trust in accordance with the terms of any current withdrawal offer made by the Responsible Entity in accordance with the provisions of the *Corporations Act* regulating offers of that kind. If there is no withdrawal offer currently open for acceptance by Unit Holders, a Unit Holder has no right to withdraw from the Trust;

8.13.2 the Responsible Entity is not at any time obliged to make a withdrawal offer; and

8.13.3 if the Responsible Entity receives a withdrawal request before it makes a withdrawal offer, it may treat the request as an acceptance of the offer effective as at the time the offer is made.

8.14 Whether or not the Trust is Liquid

Whether or not the Trust is Liquid:

These Assets with any cash paid must be of equal value to the total amount due to the Unit Holder pursuant to the withdrawal request, withdrawal offer or distribution (based on a valuation done within one month before the date of the proposed transfer). If the Responsible Entity requires, the costs involved in transfer of these Assets must be paid by the Unit Holder or deducted from the amount due to the Unit Holder.

8.15 Facility restricting dealings with Units

The Responsible Entity may from time to time by written notice to Unit Holders offer:

8.15.1 a facility whereby any proposed dealings with some or all of the Unit Holder's Units may be suspended where two (2) or more contrary or inconsistent directions or instructions (whether in whole or part or written or verbal) are received by the Responsible Entity in respect of some or all of the Unit Holder's Units within one (1) Business Day of each other; or

10.5 Manner in which a distribution is effected

The Distributable Income of the Trust must be distributed to the Unit Holders by way of distribution to, or on behalf of, the Unit Holders in accordance with this constitution. 13.2 Limitations of liability

Subject to the *Corporations Act* but without limiting the generality of any other clause:

~~25. CORPORATIONS ACT~~

25. COMPLIANCE

25.1 Corporations Act compliance

The *Corporations Act* prevails over the provisions of this constitution and to the extent that any provision would, but for this clause, result in a breach of the *Corporations Act*, that provision does not operate.

25.2 Corporations Act and ASIC Relief

25.2.1 Where:

- (a) without limiting clause 25.1, the *Corporations Act* requires that this Constitution contain certain provisions, or if ASIC relief on which the Responsible Entity has determined it wishes to rely or which is expressly applicable to the Trust and the Responsible Entity requires provisions to a certain effect to be contained in this deed in order for the ASIC relief to apply (“**Required Provisions**”); or
- (b) if any part of this Constitution (a “**Required Part**”) is included to comply with the requirements of the *Corporations Act* or ASIC or a Securities Exchange (“**Regulatory Requirement**”) and that Regulatory Requirement ceases or changes,

then, to the extent the *Corporations Act* allows, this deed is taken to be amended so that the Required Provisions are included as separate provisions, or the Required Part is deleted or amended to reflect the amended Regulatory Requirement. The Required Provisions prevail over any other provisions of this deed to the extent of any inconsistency.

25.2.2 The Unit Holders:

- (a) authorise the Responsible Entity to make the amendments referred to in this clause 25.2 in a deed and, if required, to lodge it with ASIC; and
- (b) agree that, subject to the *Corporations Act*, their rights under this deed do not include or extend to a right not to have this deed amended to comply with a Regulatory Requirement or to include Required Provisions.

25.2.3 Changes in the text of the deed to which this clause 25.2 applies are made pursuant to the power in clause 20, but in respect of those changes, the requirements of clause 20 are to be read subject to this clause 25.2.

25.3 Application of Corporations Act and Operating Rules

25.3.1 In this Constitution, except as otherwise provided in a particular clause or by law:

- (a) a requirement of the *Corporations Act* only applies while the Trust is a Registered Scheme; and

- (b) a requirement of the Operating Rules only applies while the relevant Units are Quoted.

25.4 ASIC Instruments

25.4.1 If ASIC relief from subsections 601GC(1) and (2) of the Corporations Act is granted similar to section 601GA(5) of the Corporations Act inserted by ASIC Instrument 2017/125, and the relief applies to Registered Schemes other than trusts officially quoted on the listed market of ASX, for so long as that relief applies to the Trust, a change in the text of this Constitution because of the operation of clause 25.2 that is covered by the relief instrument is not a modification of, or the repeal and replacement of, the Constitution that is required to comply with subsections 601GC(1) and (2) of the Act.

25.4.2 Changes in the text of the Constitution to which this clause 25.4 applies are made pursuant to the power in clause 20 but in respect of those changes the requirements of clause 20 are to be read subject to this clause 25.4.

25.5 Settlement Rules and Clearing Rules

If any of the Units of a Class are CHESSE approved securities, the Responsible Entity must:
