

Pro-D Balanced Fund

Pursuing balance

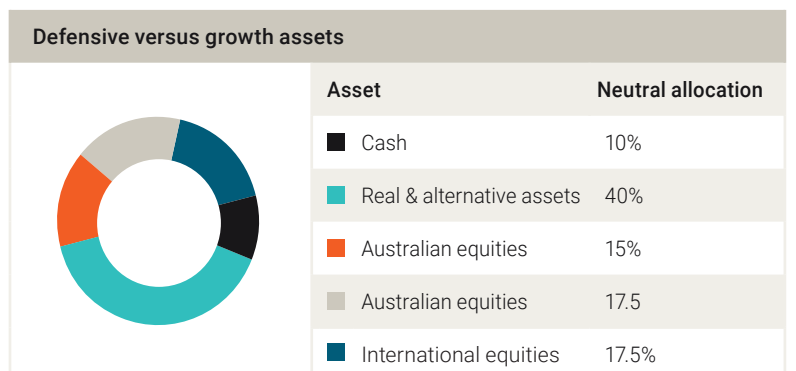

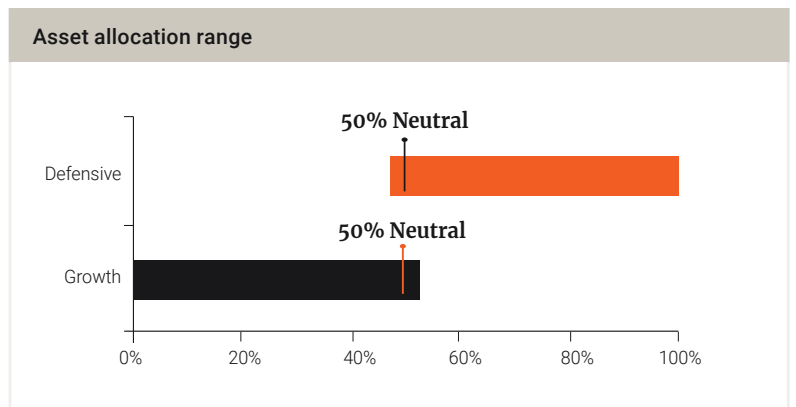

A simple, cost-effective investment solution that takes a 'balanced' approach

The Pro-D Balanced Fund is a diversified, cost-effective whole-of-portfolio solution that aims to deliver positive inflation-adjusted returns to increase investors' buying power.

The Fund is proactively managed with a strong focus on risk mitigation and its investments are strategically allocated across growth assets, such as shares and property, and defensive assets such as cash and fixed interest. Each actual allocation to these asset classes are determined by our view on each asset class's return and risk profile.

By proactively allocating between asset classes and employing a select group of active and passive investment managers, the Fund aims to deliver solid, long-term investment returns.

Fund snapshot
