Investment objective

To grow the value of your investment over the long term by investing in a UMF providing exposure to indexed Australian shares.

The UMF aims to track the return of the S&P/ASX 300 Index before taking into account fees, expenses and tax.

Investment strategy

The Fund aims to be fully invested, providing investment exposure to a portfolio of Australian shares, whose return is tracked to a benchmark.

The S&P/ASX 300 Index includes large cap, mid cap and small cap components of the S&P/ASX index family.

The UMF will hold most of the securities in the index, allowing for individual security weightings to vary marginally from the index from time to time. The UMF may invest in securities that have been removed from or are expected to be included in the index.
